17. Whether respondent believes NSA description of limited extent of program

The NSA says that it is not listening in to phone conversations, just looking at the "metadata" of call duration, etc. Do you think the NSA is telling the truth about this, or do you think it is listening in to phone conversations on a regular basis?

26. Remove filibuster procedure

Some people have suggested eliminating the filibuster procedure in the U.S. Senate so that all that would be needed to pass legislation would be a simple majority of votes, 51 out of 100. Generally speaking, do you think that this is a good idea or a bad idea?

41. Views on Florida's Stand Your Ground law

There is a law in Florida – the Stand Your Ground law – that allows individuals to use deadly force if they believe they or others are threatened. They can do this both inside and outside their homes. There is no need for the individual to attempt to get away from the threat first. Some people say that this law is necessary to ensure that people can protect themselves without threat of prosecution. Other people say that the law encourages violence and can cause innocent people to get hurt. What do you think about this law? (A) I support the law; (B) I support the idea behind the law but only if individuals are being attacked in their homes; (C) I do not support the law; (D) Not sure

The Economist/YouGov Poll

July 13-15, 2013

Sponsorship	<i>The Economist</i>
Fieldwork	YouGov
Interviewing Dates	July 13-15, 2013
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by age, gender, race, education, and region) was selected from the 2010 American Community Study. Voter registration was imputed from the November 2010 Current Population Survey Registration and Voting Supplement. Religion, political interest, minor party identification, and non-placement on an ideology scale, were imputed from the 2008 Pew Religion in American Life Survey.
Weighting	The sample was weighted using propensity scores based on age, gender, race, education, news interest, voter registration, and non-placement on an ideology scale. The weights range from 0.1 to 7.1, with a mean of one and a standard deviation of 1.16.
Number of respondents	1000
Margin of error	± 4.8% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	21 questions not reported.
