

## Research Manager, Dubai.

Department: Quantitative Research  
Location: Suite 302, Cayan Business Centre, TECOM – Dubai, UAE.  
Hours: Full Time

YouGov is looking to hire a quantitative Research Manager. Working across a number of sectors, but specifically government and tourism sectors, you will be involved in local and international research projects, as well as helping the ad-hoc teams.

To be successful in this role you will be an established Research Manager, who is looking to grow their career and skill set in a successful team. Agency side experience is essential with knowledge of management of large, international projects, while some qualitative experience will certainly be valued.

Experience with online research and SPSS as well as Arabic and English proficiency are strong advantages.

Great opportunity to join a great team in an environment which will help progress and develop your career.
