36. Approve of Memphis Police Disbanding Scorpion Unit

The Memphis Police Department has also disbanded the specialized police unit (known as the Scorpion unit) to which the five officers belonged. The unit was created a little over a year ago to help address violent crime 'hot spots' in the city, and it often operated in unmarked vehicles, making traffic stops, seizing weapons and conducting hundreds of arrests. Do you approve or disapprove of the decision to disband the Scorpion unit?

48. Favor Florida Banning A.p. African-American Studies

As you may know, Florida recently announced that it will ban the AP African-American studies course from being taught in public schools, citing a pilot version that included all of the topics from the previous screen. Do you favor or oppose such a ban?

	Total	Gender		Age				Race

49. Favor College Board African-American Studies Changes

This week, the College Board announced that it will remove contemporary topics such as Black Lives Matter, incarceration, queer life and the debate over reparations from its AP African-American studies curriculum while instead offering the topics as options for a required research project. Would you favor or oppose public high schools offering this revised Advanced Placement course in African-American studies?

Yahoo! News Poll

Sample 1,585 U.S. Adults
Conducted February 2 – 6, 2023
Margin of Error $\pm 2.8\%$

Polling Methodology and Margin of Error Calculation

The Yahoo! News survey was conducted by YouGov using a nationally representative sample of 1,585 U.S. adults interviewed online between February 2 – 6, 2023.

The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to March 15, 2022, and is weighted to the estimated distribution at that time (32% Democratic, 27% Republican). Respondents were selected from YouGov's opt-in panel to be representative of all U.S. adults. The weights range from 0.1 to 5.6, with a mean of 1 and a standard deviation of 0.6.

The *margin of error* (a 95% confidence interval) for a sample percentage p based upon the entire sample is approximately 2.8%. It is calculated using the formula

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + CV^2}{n}}$$

where CV is the coefficient of variation of the sample weights and n is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
