

1. Have you ever worked in the technology industry?

Yes, currently	7%
Yes, but not currently	9%
No	84%

2. Which ONE, if any, of the following industry sectors does your business mainly operate in?

Medical & health services	6%
IT & telecoms	6%
Manufacturing	4%
Retail	4%
Education	4%
Hospitality and leisure	2%
Construction	2%
Transportation & distribution	2%
Financial services	1%
Legal	1%
Media/ marketing/ advertising/ PR & sales	1%
Accountancy	0%
Real estate	0%
Other	10%
Don't know	1%
Not applicable - I am not currently employed	56%

3. How much of your work involves computers?

Asked of employed people

A lot	53%
A little	34%
None at all	13%

4. How often do you use artificial intelligence (AI) tools?

Multiple times per day	10%
Daily	9%
Multiple times per week	14%
Weekly	8%
Multiple times per month	10%
Less frequently than monthly	15%
Never	26%
Not sure	7%

5. Do you think U.S. companies are investing too much or too little in AI?

Too much	53%
About the right amount	27%
Too little	3%
Not sure	17%

6. Have you ever used AI to do the following?

Respondents were asked about a random sample of 15 of the tasks

	Yes	No, but I would consider it	No, and I would not consider it	Not sure
Look up the answer to a question	59%	14%	22%	5%
Get clarification on complex topics	43%	25%	27%	5%
Get step-by-step instructions	40%	27%	25%	8%

Music written by a person and music created by AI	7%	14%	27%	19%	13%	20%

9. If you were seeking therapy, how comfortable or uncomfortable would you be using a smartphone app and working with an AI therapist, rather than having an in-person visit?

Very comfortable	7%
Somewhat comfortable	16%
Somewhat uncomfortable	17%
Very uncomfortable	51%
Don't know	10%

10. Do you know anyone who has used AI for therapy?

Yes	8%
No	86%
Not sure	7%

11. Have you ever used AI for therapy?

Yes	6%
No, but I would consider it	17%
No, and I would not consider it	74%
Not sure	3%

12. Do you think that AI will generally have more of a positive or a negative effect on parenting?

Entirely positive	3%
More positive than negative	9%
Equally positive and negative	19%
More negative than positive	29%
Entirely negative	23%
Not sure	18%

13. Do you think it is a good idea or a bad idea for parents to ask AI tools for advice on parenting?

Good idea	22%
Bad idea	49%
Not sure	28%

14. Do you think it is a good idea or a bad idea for parents to let their children use AI tools?

Good idea	16%
Bad idea	60%
Not sure	24%

15. Do you think that AI generally will improve or worsen the education that children born this year will receive throughout their childhood?

Improve a lot	7%
Improve a little	11%
Neither improve nor worsen	15%
Worsen a little	17%
Worsen a lot	37%
Not sure	13%

16. Do you consider it to be acceptable or unacceptable for filmmakers to use AI in the following ways when making a movie?

Respondents were asked about a random sample of 10 of the uses

	Acceptable	Unaccept- able	Not sure
Replacing all actors with AI-generated characters	14%	73%	14%
Creating an entirely AI-generated movie without human actors or writers	21%	63%	17%

continued on the next page ...

continued from previous page

Having an AI character play a role that would normally be played by a human actor	22%	62%	16%
Re-creating actors who are deceased	18%	59%	23%
Writing the script	25%	56%	19%
Composing the musical score	35%	44%	21%
Using AI and a human-written script to generate all of the visuals and sound	31%	44%	26%
Generating voiceover audio for narration	40%	42%	18%
De-aging an actor	38%	40%	22%
Making movie trailers	45%	39%	16%
Generating audio of dialogue in a language that the actors do not speak	43%	37%	21%
Creating dubbed audio tracks for languages the film wasn't recorded in	52%	31%	17%
Editing footage and assembling scenes	53%	31%	16%
Generating visual effects	61%	26%	14%
Translating for subtitles for versions in other countries	68%	18%	15%

17. How often do you use AI tools to help you write?

Daily	8%
Weekly	11%
Monthly	7%
Rarely	16%
Never	54%
Not sure	4%

18. How have you used AI tools in writing? Select all that apply.

Asked of people who use AI to write

Rewording specific sentences or phrases	58%
Doing research	50%
Generating ideas	48%
Writing parts of documents or messages	36%
Revising whole documents or messages	30%
Writing entire documents or messages that I edit and send	29%
Writing entire documents or messages that I send without editing	14%
Other	5%

19. Do you think you would do better or worse than an AI chatbot at picking stocks?

Much better	7%
Slightly better	8%
About the same	15%
Slightly worse	16%
Much worse	21%
Not sure	33%

20. Do you think you would do better or worse than an AI chatbot at predicting U.S. national election winners?

Much better	7%
Slightly better	10%
About the same	26%
Slightly worse	11%
Much worse	14%
Not sure	31%

21. Do you think you could ever form a deep emotional bond with an AI chatbot companion?

I already have	1%
Definitely	3%
Probably	7%
Probably not	14%
Definitely not	64%
Not sure	10%

22. Do you think you could ever have a romantic relationship with an AI chatbot companion?

I already have	1%
Definitely	2%
Probably	3%
Probably not	9%
Definitely not	80%
Not sure	5%

23. Do you know anyone who has had a romantic relationship with an AI chatbot companion? Select all that apply.

A close friend	3%
An acquaintance	2%
A family member	1%
None of these	83%
Not sure	12%

YouGov Survey: AI Usage

July 9 - 12, 2026 - 1,081 U.S. adult citizens

Interviewing Dates	July 9 - 12, 2026
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.052 to 6.581, with a mean of one and a standard deviation of 0.878.
Number of respondents	1,081
Margin of error	± 4 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	60 questions not reported.

YouGov Survey: AI Usage
July 9 - 12, 2026 - 1,081 U.S. adult citizens

Interviewing Dates	July 9 - 12, 2026
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.052 to 6.581, with a mean of one and a standard deviation of 0.878.
Number of respondents	1,081
Margin of error	± 4 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	61 questions not reported.
