YouGov Survey: Baby Names

May 12 - 16, 2026 - 1,124 U.S. adult citizens

Interviewing Dates	May 12 - 16, 2026
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.052 to 6.575, with a mean of one and a standard deviation of 0.927.
Number of respondents	1,124
Margin of error	± 4 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	56 questions not reported.

YouGov Survey: Baby Names

May 12 - 16, 2026 - 1,124 U.S. adult citizens

Interviewing Dates	May 12 - 16, 2026
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.052 to 6.575, with a mean of one and a standard deviation of 0.927.
Number of respondents	1,124
Margin of error	± 4 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	56 questions not reported.
