

YouGov Survey: Birth Control

Sample 1136 U.S. adult citizens
Conducted August 28 - 31, 2025
Margin of Error $\pm 3.9\%$

1. Have you ever used any form of hormonal birth control, including birth control pills or a hormonal IUD?

Asked of women

Yes	69%
No	29%
Not sure	1%
Prefer not to say	1%

2. Which, if any, of the following are reasons why you have never taken any form of hormonal birth control? Select all that apply.

Asked of women who have never taken hormonal birth control

Do not need birth control	51%
Concern about side effects	25%
Concern about long-term health risks	18%
Preference for non-hormonal methods of birth control	10%
Moral or religious opposition	5%
Lack of access	4%
Lack of information	3%
Cost or lack of insurance coverage	2%
Other reason	7%
Prefer not to say	10%

3. Which, if any, of the following are reasons why you have ever taken hormonal birth control? Select all that apply.

Asked of women who have taken hormonal birth control

To prevent pregnancy	81%
To regulate menstrual cycles	31%
To reduce menstrual pain or cramps	23%
Doctor recommended it	21%
More reliable than other methods	16%
To prevent menstruation	14%
To improve acne or skin conditions	4%
Other reason	2%
Prefer not to say	2%

4. Have you ever switched from one type of hormonal birth control to another type of hormonal birth control ?

Asked of women who have taken hormonal birth control

Yes	37%
No	55%
Not sure	9%

5. Have you ever stopped or taken a break from taking hormonal birth control?

Asked of women who have taken hormonal birth control

Yes	78%
No	20%
Not sure	2%

6. Which of the following are reasons why you have ever switched from one type of hormonal birth control to another type of hormonal birth control? Select all that apply.

Asked of women who have switched from one type of hormonal birth control to another

Side effects	57%
Long-term health risks	28%
Dissatisfied with effectiveness	17%
Cost or lack of insurance coverage	15%
Lack of access	7%
Moral or religious opposition	1%
Other reason	12%
Prefer not to say	4%

7. Which of the following are reasons why you have ever stopped taking hormonal birth control? Select all that apply.

Asked of women who have taken hormonal birth control and stopped using it

No longer needed birth control	44%
Side effects	25%
Did not need birth control	25%
Desire to get pregnant	23%
Long-term health risks	15%
Preference for non-hormonal methods of birth control	9%
Cost or lack of insurance coverage	8%
Dissatisfied with effectiveness	6%
Moral or religious opposition	3%
Lack of access	1%
Other reason	12%
Prefer not to say	0%

8. Have you ever experienced any of the following effects from taking hormonal birth control? Select all that apply.

Asked of women who have taken hormonal birth control

Lighter periods or no period	34%
Weight gain	30%
Reduced menstrual cramps	22%
Irregular bleeding	21%
Mood changes	20%
Headaches	14%
Heavier periods	11%
Lower sex drive	11%
Nausea	10%
Breast changes	8%
Clearer skin	8%
Worsened skin	5%
Increased sex drive	2%
Weight loss	2%
Other health benefits	2%
Other negative health effects	3%
Have not experienced any effects	27%
Prefer not to say	2%

9. If it was readily available for men, would you consider using hormonal contraception (such as a pill, or an implant)?

Asked of sexually active men

Yes	20%
No	56%
Not sure	21%
Prefer not to say	4%

10. In the past, where have you gotten information about birth control? Select all that apply.

Doctor or health care provider	54%
Online search	21%
Friends	21%
Sex education classes	21%
Parents	17%
Social media	12%
Partner or spouse	10%
Television	10%
Other family members	8%
Therapist or counselor	2%
Religious leader	2%
Other	2%
None of the above	20%

11. Who, if anyone, would you feel comfortable talking with about birth control? Select all that apply.

Doctor or health care provider	61%
Partner or spouse	45%
Friends	41%
Other family members	22%
Parents	21%
Therapist or counselor	16%
Strangers	6%
Religious leader	5%
Other	2%
None of the above	18%

12. To the best of your knowledge, how effective are the following methods of birth control at preventing pregnancy?

	Very effective	Somewhat effective	Not very effective	Not effective at all	Not sure
Abstinence from penetrative sex	64%	10%	8%	5%	13%
Birth control pill	48%	36%	4%	3%	9%
Intrauterine device (IUD)	37%	31%	3%	3%	25%
Condoms	34%	49%	6%	4%	7%
Pull-out method / the withdrawal method	4%	17%	40%	27%	13%

13. Would you say that birth control pills are... ?

Very safe	25%
Somewhat safe	42%
Somewhat unsafe	14%
Very unsafe	7%
Not sure	12%

14. Would you say that intrauterine devices (IUDs) are... ?

Very safe	16%
Somewhat safe	36%
Somewhat unsafe	15%
Very unsafe	7%
Not sure	26%

15. Have you or has anyone close to you stopped taking the birth control pill because they thought the pill could be harmful to their health?

Yes	24%
No	51%
Not sure	25%

16. Do you think that birth control is morally acceptable or morally unacceptable?

Morally acceptable	76%
Morally unacceptable	8%
Not sure	15%

17. Do you think that birth control should be legal or illegal?

Legal	88%
Illegal	4%
Not sure	9%

18. Should it be legal or illegal for teenagers under the age of 18 to be prescribed birth control without parental approval?

Legal	46%
Illegal	34%
Not sure	20%

19. Should it be legal or illegal for teenagers under the age of 18 to be prescribed birth control with parental approval?

Legal	79%
Illegal	11%
Not sure	10%

20. Should birth control pills be able to be sold over the counter, or should a doctor's prescription be required?

Doctor's prescription	47%
Over the counter	40%
Not sure	14%

21. Should birth control prescription medications be allowed to be sent by mail?

Yes	63%
No	21%
Not sure	16%

22. Should private health insurance plans be required to cover the cost of birth control?

Yes	66%
No	18%
Not sure	16%

23. Should government health insurance programs for low-income people, like Medicaid, cover the cost of birth control?

Yes	71%
No	13%
Not sure	16%

24. Which of the following do you think is the better way to reduce the number of unintended pregnancies?

Emphasizing safe sexual practices and birth control	70%
Emphasizing abstinence	20%
Not sure	10%

25. To the best of your knowledge, is the following statement true or false?

	True	False	Not sure
Making birth control more accessible reduces the number of abortions	72%	11%	17%
For the birth control pill to be effective, you need to take it around the same time each day	51%	12%	37%
Birth control pills cause weight gain	39%	16%	45%
Taking the birth control pill can make it difficult to get pregnant later in life	18%	45%	37%
You can't get pregnant while on your period	17%	64%	19%
Birth control pills can give you cancer	14%	40%	47%
Birth control is a form of abortion	8%	81%	12%
You can't get pregnant while breastfeeding	7%	73%	20%
Birth control pills protect against sexually transmitted diseases (STDs)	5%	83%	12%

YouGov Survey: Birth Control

Interviewing Dates	August 28 - 31, 2025
Target population	U.S. Citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 32% Republican). The weights range from 0.052 to 5.05, with a mean of one and a standard deviation of 0.916.
Number of respondents	1136
Margin of error	± 3.9% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	62 questions not reported.

YouGov Survey: Birth Control

August 28 - 31, 2025 - 1136 U.S. adult citizens

Interviewing Dates	August 28 - 31, 2025
Target population	U.S. Citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 32% Republican). The weights range from 0.052 to 5.05, with a mean of one and a standard deviation of 0.916.
Number of respondents	1136
Margin of error	± 3.9% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	62 questions not reported.
