

1. Have you ever taken any form of hormonal birth control, including birth control pills or a hormonal IUD?

Among women

Yes	65%
No	31%
Not sure	1%
Prefer not to say	3%

2. Which, if any, of the following are reasons why you have never taken any form of hormonal birth control? Select all that apply.

Among women who have never taken hormonal birth control

Do not need birth control	47%
Concern about side effects	22%
Concern about long-term health risks	21%
Preference for non-hormonal methods of birth control	11%
Lack of access	6%
Moral or religious opposition	4%
Lack of information	4%
Cost or lack of insurance coverage	2%
Other reason	7%
Prefer not to say	17%

3. Which, if any, of the following are reasons why you have ever taken hormonal birth control? Select all that apply.

Among women who have taken hormonal birth control

To prevent pregnancy	78%
To regulate menstrual cycles	35%
To reduce menstrual pain or cramps	27%
Doctor recommended it	21%
More reliable than other methods	14%
To prevent menstruation	12%
To improve acne or skin conditions	11%
Other reason	3%
Prefer not to say	2%

4. Have you ever switched from one type of hormonal birth control to another type of hormonal birth control ?

Among women who have taken hormonal birth control

Yes	42%
No	53%
Not sure	5%

5. Have you ever stopped or taken a break from taking hormonal birth control?

Among women who have taken hormonal birth control

Yes	84%
No	13%
Not sure	3%

6. Which of the following are reasons why you have ever switched from one type of hormonal birth control to another type of hormonal birth control? Select all that apply.

Among women who have switched from one type of hormonal birth control to another

Side effects	52%
Cost or lack of insurance coverage	22%
Long-term health risks	19%
Dissatisfied with effectiveness	18%
Lack of access	4%
Moral or religious opposition	3%
Other reason	13%
Prefer not to say	4%

7. Which of the following are reasons why you have ever stopped taking hormonal birth control? Select all that apply.

Among women who have taken hormonal birth control and stopped using it

No longer needed birth control	38%
Desire to get pregnant	26%
Did not need birth control	26%
Side effects	25%
Long-term health risks	20%
Preference for non-hormonal methods of birth control	11%
Cost or lack of insurance coverage	9%
Dissatisfied with effectiveness	5%
Lack of access	2%
Moral or religious opposition	1%
Other reason	10%
Prefer not to say	2%

8. Have you ever experienced any of the following effects from taking hormonal birth control? Select all that apply.

Among women who have taken hormonal birth control

Lighter periods or no period	31%
Weight gain	29%
Reduced menstrual cramps	24%
Mood changes	23%
Irregular bleeding	19%
Headaches	17%
Lower sex drive	12%
Heavier periods	12%
Clearer skin	12%
Breast changes	10%
Nausea	8%
Worsened skin	5%
Weight loss	3%
Increased sex drive	2%
Other health benefits	3%
Other negative health effects	4%
Have not experienced any effects	26%
Prefer not to say	2%

9. If it were readily available for men, would you consider using hormonal contraception (such as a pill or an implant)?

Among sexually active men

Yes	22%
No	51%
Not sure	26%
Prefer not to say	2%

10. In the past, where have you gotten information about birth control? Select all that apply.

Doctor or health care provider	54%
Online search	23%
Friends	23%
Sex education classes	20%
Parents	19%
Social media	13%
Partner or spouse	11%
Other family members	9%
Television	8%
Therapist or counselor	3%
Religious leader	1%
Other	3%
None of the above	21%

11. Who, if anyone, would you feel comfortable talking with about birth control? Select all that apply.

Doctor or health care provider	62%
Partner or spouse	49%
Friends	45%
Parents	24%
Other family members	23%
Therapist or counselor	16%
Strangers	7%
Religious leader	6%
Other	2%
None of the above	16%

12. To the best of your knowledge, how effective are the following methods of birth control at preventing pregnancy?

	Very effective	Somewhat effective	Not very effective	Not at all effective	Not sure
Abstinence from penetrative sex	65%	13%	7%	3%	12%
Birth control pill	53%	33%	3%	2%	9%
Intrauterine device (IUD)	38%	31%	4%	1%	26%
Condoms	34%	51%	5%	1%	8%
Pull-out method / the withdrawal method	4%	20%	40%	22%	13%

13. Do you think that birth control pills are...?

Very safe	25%
Somewhat safe	42%
Somewhat unsafe	14%
Very unsafe	5%
Not sure	14%

14. Do you think that intrauterine devices (IUDs) are...?

Very safe	14%
Somewhat safe	41%
Somewhat unsafe	14%
Very unsafe	5%
Not sure	26%

15. Have you or has anyone close to you stopped taking the birth control pill because they thought the pill could be harmful to their health?

Yes	22%
No	50%
Not sure	27%

16. Do you think that birth control is morally acceptable or morally unacceptable?

Morally acceptable	77%
Morally unacceptable	6%
Not sure	17%

17. Should birth control be legal or illegal?

Legal	86%
Illegal	2%
Not sure	12%

18. Should it be legal or illegal for teenagers under the age of 18 to be prescribed birth control without parental approval?

Legal	43%
Illegal	36%
Not sure	22%

19. Should it be legal or illegal for teenagers under the age of 18 to be prescribed birth control with parental approval?

Legal	77%
Illegal	11%
Not sure	12%

20. Should birth control pills be able to be sold over the counter, or should a doctor's prescription be required?

Doctor's prescription should be required	46%
Should be able to be sold over the counter	39%
Not sure	16%

21. Should birth control prescription medications be allowed to be sent by mail?

Yes	64%
No	19%
Not sure	17%

22. Should private health insurance plans be required to cover the cost of birth control?

Yes	68%
No	15%
Not sure	16%

23. Should government health insurance programs for low-income people, such as Medicaid, cover the cost of birth control?

Yes	77%
No	9%
Not sure	14%

24. Which of the following do you think is the better way to reduce the number of unintended pregnancies?

Emphasizing safe sexual practices and birth control	71%
Emphasizing abstinence	19%
Not sure	10%

25. To the best of your knowledge, is the following statement true or false?

	True	False	Not sure
Making birth control more accessible reduces the number of abortions	77%	8%	16%
For a birth control pill to be effective, you need to take it around the same time each day	53%	12%	35%
Birth control pills cause weight gain	37%	17%	46%
Taking the birth control pill can make it difficult to get pregnant later in life	19%	40%	40%
You can't get pregnant while on your period	18%	61%	21%
Birth control pills can give you cancer	13%	38%	50%
Birth control is a form of abortion	8%	77%	14%
You can't get pregnant while breastfeeding	7%	72%	21%
Birth control pills protect against sexually transmitted diseases (STDs)	4%	84%	12%

YouGov Survey: Birth Control

July 15 - 17, 2026 - 1,117 U.S. adult citizens

Interviewing Dates	July 15 - 17, 2026
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.051 to 6.528, with a mean of one and a standard deviation of 0.869.
Number of respondents	1,117
Margin of error	± 3.9 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	65 questions not reported.

YouGov Survey: Birth Control

July 15 - 17, 2026 - 1,117 U.S. adult citizens

Interviewing Dates	July 15 - 17, 2026
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.051 to 6.528, with a mean of one and a standard deviation of 0.869.
Number of respondents	1,117
Margin of error	± 3.9 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	65 questions not reported.
