

YouGov Survey: Climate Change

Sample 1137 U.S. adult citizens
Conducted May 21 - 27, 2025
Margin of Error $\pm 3.7\%$

1. Thinking about the global environment...In general, which of the following statements, if any, best describes your view?

The climate is changing and human activity is mainly responsible	36%
The climate is changing and human activity is partly responsible, together with other factors	48%
The climate is changing but human activity is not responsible at all	8%
The climate is not changing	3%
Not sure	5%

2. Do you think that your country could be doing more to tackle climate change, is it already doing as much as it reasonably can, or is it doing too much?

Could be doing more	55%
Doing as much as it reasonably can	23%
Doing too much	9%
The climate is not changing	3%
Not sure	10%

3. And do you think that you personally could be doing more to tackle climate change, are you already doing as much as you reasonably can, or are you doing too much?

Could be doing more	37%
Doing as much as I reasonably can	46%
Doing too much	2%
The climate is not changing	3%
Not sure	12%

4. Which of the following comes closest to your view?

It is already too late to avoid the worst effects of climate change	11%
We are still able to avoid the worst effects of climate change but it would need a drastic change in the steps taken to tackle it	44%
We will be able to avoid the worst effects of climate change if we broadly carry on with the steps currently being taken to tackle it	21%
We will be able to avoid the worst effects of climate change without taking any steps to tackle it	8%
The climate is not changing	3%
Not sure	14%

5. If you had to choose one, which approach would you prefer governments and societies to focus on more to tackle climate change?

One where we attempt to reduce consumption of resources to slow or halt the negative effects of climate change43%

One where we attempt to come up with technological solutions to try to counter the effects of climate change32%

The climate is not changing3%

Not sure22%

6. How much harm, if any, do you think climate change will have on the following people and places over the next 50 years?

	A large amount	A moderate amount	A small amount	None at all	Don't know	The climate is not changing
The world	46%	26%	14%	4%	7%	3%
People in the United States	36%	32%	16%	5%	7%	3%
Your local community	23%	35%	23%	8%	9%	3%
You personally	17%	31%	24%	15%	10%	3%

7. Do you experience anxiety, grief, or other distress because of concerns over climate change?

Yes28%

No69%

The climate is not changing3%

8. Has climate change caused you to reconsider major life decisions such as...?

	Yes	No	The climate is not changing
Lifestyle choices (including, diet, transportation, and travel)	36%	61%	3%
Decisions about where to live	33%	64%	3%
Decisions to have children	16%	81%	3%

9. Do you engage in advocacy related to climate change?

Yes19%

No79%

The climate is not changing3%

10. Do you think you will see catastrophic impacts of climate change in your lifetime?

Yes50%

No48%

The climate is not changing3%

11. How likely, if at all, do you think it is that climate change will cause each of the following?

	Very likely	Somewhat likely	Not very likely	Not at all likely	The climate is not changing	Don't know
Serious damage to the global economy	33%	32%	13%	11%	3%	8%
Mass displacement of people from some parts of the world to others	28%	33%	14%	12%	3%	9%
Cities being lost to rising sea levels	27%	34%	15%	13%	3%	9%
Small wars	24%	27%	19%	15%	3%	12%
A new world war	13%	23%	23%	22%	3%	16%
Earth becoming uninhabitable for all life	12%	21%	24%	31%	3%	10%
The extinction of the human race	8%	20%	25%	34%	3%	10%

Interviewing Dates

May 21 - 27, 2025

Target population

U.S. Citizens, aged 18 and over.

Sampling method

Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.

Weighting

The sample was weighted according to gender, age, race, education, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 32% Republican). The weights range from 0.051 to 5.013, with a mean of one and a standard deviation of 0.762.

Number of respondents

1137

Margin of error

± 3.7% (adjusted for weighting)

Survey mode

Web-based interviews

Questions not reported

60 questions not reported.

YouGov Survey: Climate Change

YouGov Survey: Climate Change

May 21 - 27, 2025 - 1137 U.S. adult citizens

Interviewing Dates	May 21 - 27, 2025
Target population	U.S. Citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 32% Republican). The weights range from 0.051 to 5.013, with a mean of one and a standard deviation of 0.762.
Number of respondents	1137
Margin of error	± 3.7% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	60 questions not reported.
