Kinesiology and physical therapy	9%
Religious studies	9%
Liberal arts	8%
Philosophy	8%
Anthropology	7%
Speech/language pathology	7%
Performing arts	6%
None of the above	7%

4. How important do you think each of the following factors should be in a college student's selection of a major?

	Very important	Somewhat important	Not very important	Not at all important	Not sure
How interested they are in it	74%	19%	2%	1%	4%
How relevant it is to their career goals	65%	27%	2%	1%	5%
Its job placement rate	57%	31%	3%	1%	7%
How good they are at it	56%	35%	3%	1%	5%
Its earnings potential	52%	38%	4%	1%	4%
How likely it is that artificial intelligence will replace jobs in the field	40%	36%	9%	4%	10%
How much it will allow them to contribute to society	36%	44%	9%	4%	6%
How difficult or demanding it is	35%	45%	11%	2%	6%
How well-rounded it makes them	34%	40%	14%	4%	7%

5. If you had to say, which of the following do you think a person should weigh more heavily when choosing a college major?

How interested they are in the major	63%
The major's earnings potential	27%
Not sure	9%

YouGov Survey: College Majors

November 12 - 20, 2025 - 2,265 U.S. adult citizens

Interviewing Dates	November 12 - 16, 2025 November 17 - 20, 2025
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 32% Republican). The weights range from 0.051 to 5.577, with a mean of one and a standard deviation of 0.838.
Number of respondents	2,265
Margin of error	± 2.7 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	70 questions not reported.

YouGov Survey: College Majors

November 12 - 20, 2025 - 2,265 U.S. adult citizens

Interviewing Dates	Novemeber 12 - 16, 2025 November 17 - 20, 2025
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 32% Republican). The weights range from 0.051 to 5.577, with a mean of one and a standard deviation of 0.838.
Number of respondents	2,265
Margin of error	± 2.7 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	70 questions not reported.
