

Consumerisation of IT

SixthSense™

About SixthSense

SixthSense, part of YouGov plc, is a provider of comprehensive business intelligence. We offer a powerful new type of consumer-driven market intelligence report and online information platform, designed to help your business make better and quicker decisions.

Through our proprietary panel of over 350,000 UK consumers and bespoke research methodology, we collect unique consumer insight.

Our analysts are highly qualified and, on average, each draws on over 15 years industry experience to deliver analysis, comment, opinion and advice on the latest market trends and conditions across a range of sectors including Food & Drink, Retail, Health & Beauty, Lifestyle, Finance and Technology.

YouGov has been acclaimed as the country's most accurate pollster and the most quoted research company in the UK and has operations in the US, Europe and the Middle East.

For more information about our services, please see
