YouGov Survey: DNA Tests
October 23 - 28, 2026 - 1,085 U.S. adult citizens

YouGov

1. Have you ever taken a mail-in DNA test?

Yes	21%
No	77%
Prefer not to say	3%

2. How interested would you be in taking a mail-in DNA test?

I've already taken one	21%
Very interested	13%
Somewhat interested	23%
Not very interested	16%
Not at all interested	22%
Not sure	4%

3. Do you think taking a mail-in DNA test was worth it?
Among people who have taken a mail-in DNA test

Definitely worth it	34%
Probably worth it	38%
Probably not worth it	19%
Definitely not worth it	4%
Not sure	5%

4. Has anyone in your family other than you taken a mail-in DNA test? Select all that apply.

Yes, someone in my immediate family (such as a parent, sibling, or child)	22%
Yes, someone in my extended family (such as a grandparent, cousin, aunt, or uncle)	14%
No	43%
Not sure	24%
Prefer not to say	1%

5. Did the DNA test taken by either you or your family member(s) result in anything that surprised you?
Among those who either have taken a DNA test or whose immediate family member has taken a DNA test

Yes	42%
No	58%

6. Did you learn from DNA test results about any close relatives whom you previously didn't know about?
Among those who either have taken a DNA test or whose immediate family member has taken a DNA test

Yes	27%
No	70%
Prefer not to say	3%

YouGov Survey: DNA Tests
October 23 - 28, 2026 - 1,085 U.S. adult citizens

YouGov

7. Did DNA test results change the way you think about your racial or ethnic identity?
Among those who either have taken a DNA test or whose immediate family member has taken a DNA test

Yes	18%
No	70%
The test results did not include any new information about race or ethnicity	11%
Prefer not to say	1%

8. Did DNA test results change the way you think about your health or genetic traits?
Among those who either have taken a DNA test or whose immediate family member has taken a DNA test

Yes	20%
No	60%
The test results did not include any information about health or genetic traits	19%
Prefer not to say	1%

9. Which of the following are reasons why you took or could be interested in taking a DNA test? Select all that apply.
Among people who have taken a DNA test or are very, somewhat, or not very interested in taking one

To learn about ancestry and heritage	63%
Out of curiosity or for fun	60%
To learn about health risks or genetic traits	35%
To connect with family members	19%
To verify or compare previous DNA test results	11%
To explore past adoptions in the family	7%
Other	3%
Not sure	8%

10. Which of the following are reasons why you might not be interested in taking a DNA test? Select all that apply.
Among people who are somewhat, not very, or not at all interested in taking a DNA test

No interest or perceived need	36%
Privacy concerns	35%
The cost	32%
Distrust of companies handling DNA data	30%
Already know ancestry and heritage	16%
Don't trust accuracy of DNA tests	12%
Don't want to discover upsetting information	10%
Other	2%
Not sure	11%

YouGov Survey: DNA Tests
October 23 - 28, 2026 - 1,085 U.S. adult citizens

YouGov

11. How much do you know about your family's ancestry or heritage?

A great deal	10%
A lot	13%
A moderate amount	36%
A little	30%
None at all	8%
Prefer not to say	2%

12. How much would you prefer to know about your family's ancestry or heritage?

A great deal	31%
A lot	24%
A moderate amount	24%
A little	12%
None at all	5%
Prefer not to say	3%

13. Do you think any of your ancestors were important historical figures such as royalty?

Definitely	10%
Probably	12%
Probably not	40%
Definitely not	20%
Not sure	17%

14. Were you adopted?

Yes	2%
No	96%
Not sure	1%
Prefer not to say	1%

15. How much of a concern is privacy in your decision of whether to take a DNA test or not?

Very much a concern	28%
Somewhat a concern	29%
Not very much a concern	25%
Not at all a concern	19%

16. How accurate do you think DNA tests are?

Very accurate	33%
Somewhat accurate	44%
Not very accurate	8%
Not at all accurate	1%
Not sure	14%

17. How accurate do you think DNA tests are for people with ancestries similar to yours?

Very accurate	34%
Somewhat accurate	43%
Not very accurate	6%
Not at all accurate	1%
Not sure	16%

18. Do you think that law enforcement should be able to access the records of DNA test companies to assist in solving crimes?

Yes, for all crimes	27%
Yes, but only for violent crimes	34%
No	21%
Not sure	18%

19. Do you think people who take DNA tests should be able to opt out of allowing their records to be shared with law enforcement?

Yes, in all circumstances	30%
Yes, except if they are personally being investigated for a crime	34%
No	20%
Not sure	15%

20. If law enforcement asked for your DNA in order to prove that a distant relative of yours was guilty of a violent crime, would you be willing to share it with them?

Yes	45%
No	23%
Not sure	32%

21. Now we are going to ask you about some hypothetical scenarios. Imagine you are taking a DNA test for the first time and as a result would learn some surprising previously unknown information. Would you want to take the DNA test or not if it meant that you would learn...?

	Yes, I would	No, I would not	Prefer not to say
That you have a biological sibling whom you had never met	76%	19%	5%
That you have a high likelihood of developing a serious health condition	71%	23%	6%
That your ancestors are not from the racial or ethnic group that you expected	69%	25%	6%
That a family member had committed a violent crime you didn't know about	64%	30%	7%
That you were adopted	62%	32%	6%
That you are not biologically related to your father	62%	33%	5%
That an ancestor was a slave owner	61%	33%	6%
That you are distantly related to your spouse or partner	60%	35%	5%

continued on the next page . . .

continued from previous page

That you are not biologically related to your mother	59%	36%	5%

Interviewing Dates	October 23 - 28, 2026
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.053 to 6.703, with a mean of one and a standard deviation of 0.994.
Number of respondents	1,085
Margin of error	$\pm$ 4.2 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	74 questions not reported.

21F. Hypothetical DNA Test Results — That you are not biologically related to your father

Now we are going to ask you about some hypothetical scenarios. Imagine you are taking a DNA test for the first time and as a result would learn some surprising previously unknown information. Would you want to take the DNA test or not if it meant that you would learn...?

YouGov Survey: DNA Tests
October 23 - 28, 2026 - 1,085 U.S. adult citizens

Interviewing Dates	October 23 - 28, 2026
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.053 to 6.703, with a mean of one and a standard deviation of 0.994.
Number of respondents	1,085
Margin of error	$\pm$ 4.2 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	74 questions not reported.
