74. Agree
Which of the following do you agree with? (A) America remains the one indispensable nation.; (B) We can't kill our way out of this mess. We're going to have to put in place a very comprehensive and robust strategy to help the world of Islam and other parts of the world to reject this radical violent extremism.; (C) The key that we're going to have to pursue as a pathway is to get the Muslim world to be able reject extremism on its own.; (D) What we need to do with respect to the Middle East is strong and steady leadership, not wrong and reckless leadership that is all over the map; (E) The truly greatest threat we are facing now is the threat to our climate; (F) This is a military budget that has doubled in size, but we are not twice as secure; (G) It was worth moving heaven and earth to get him (Osama Bin Laden).; (H) I don't want our military involved in Syria. I don't think there's a necessity to put the military there at this stage, I don't anticipate that in the future.; (I) After a decade of war, it's time to do some nation building here at home.; (J) I want a great relationship with China...But that doesn't mean they can roll all over us, and steal our jobs

75. Disagree

Which of the following do you agree with? (A) America remains the one indispensable nation.; (B) We can't kill our way out of this mess. We're going to have to put in place a very comprehensive and robust strategy to help the world of Islam and other parts of the world to reject this radical violent extremism.; (C) The key that we're going to have to pursue as a pathway is to get the Muslim world to be able reject extremism on its own.; (D) What we need to do with respect to the Middle East is strong and steady leadership, not wrong and reckless leadership that is all over the map; (E) The truly greatest threat we are facing now is the threat to our climate; (F) This is a military budget that has doubled in size, but we are not twice as secure; (G) It was worth moving heaven and earth to get him (Osama Bin Laden).; (H) I don't want our military involved in Syria. I don't think there's a necessity to put the military there at this stage, I don't anticipate that in the future.; (I) After a decade of war, it's time to do some nation building here at home.; (J) I want a great relationship with China...But that doesn't mean they can roll all over us, and steal our jobs
