

Front-end Developer

Department: IT Development
Location: Warsaw
Reports To: Senior Director of Digital Development
Hours: Full time

YouGov is a global market research and data company built on a simple idea: The more people participate in the decisions made by the institutions that serve them, the better those decisions will be.

You will be predominantly working on YouGov Profiles, a new tool for media planning, segmentation and forecasting that is set to revolutionise the way that organisations understand their customers and their market. It's a "big data" project with great commercial prospects that places a compelling user experience at its core. YouGov is a highly successful global company with the passion of a start-up and you'll be coming in at an ideal time to really put your stamp on the project. You'll be encouraged to contribute your ideas, not just your code. This is challenging yet fun work on user interfaces, API design, and data visualization, operating at the cutting edge of web technologies.

Key responsibilities

YouGov seeks an experienced JavaScript developer to play a leading role in building our single-page application for data exploration and interactive graphics.

This position is a great fit if:

- You are a programmer first and web designer second. You write beautiful, interactive, scalable software - software that just happens to run in a web browser.
- You have a passion for data, for building tools to work with data, or for building tools that more generally help people solve problems effortlessly.

Skills and experience

- Expert-level skills in JavaScript as well as competence with Angular.js and CSS3
- Demonstrated experience in developing large-scale, single-page web applications
- Strong communication and organizational skills
- Serious commitment to high development standards, including comprehensive testing.
- Experience working on a distributed global team is a plus
- Confidence in written and spoken English

What we offer:

- Exciting technology stack
- Global reach of your work (quick release cycle)
- Stable employment at a global company
- Startup atmosphere
- Fresh fruit, coffee and cool beverages
- Private medical insurance
- Competitive salary
- Best tools - Macbook Pro, Apple 27" Thunderbolt Display

If you'd like to apply please send your CV to: poland@yougov.com

Please include the following statement in your application: "I hereby authorize you to process my personal data included in my job application for the needs of the recruitment process in accordance with the Personal Data Protection Act dated 29.08.1997 (uniform text: Journal of Laws of the Republic of Poland 2002 No 101, item 926 with further amendments) conducted by YouGov Poland Sp. z o.o. located in Warsaw and being a company of YouGov PLC."

This is not an exhaustive list, and you will be expected to be flexible in your approach to carrying out your duties, that may change from time to time to reflect changes in the Company's circumstances. This will include providing cover for colleagues as required. The Company therefore reserves the right to vary the job description in consultation with you.
