The word 'globalisation' is sometimes used to describe the trend towards a global economy and the way countries have developed closer interaction with each other, making it easier for companies and people to live, work, trade and travel overseas. From what you know, do you think this process has been generally good or bad for each of the following? (Please select one option on each row)

Poland	GB	Australia	United States	Canada	Brazil	Mexico

The word 'globalisation' is sometimes used to describe the trend towards a global economy and the way countries have developed closer interaction with each other, making it easier for companies and people to live, work, trade and travel overseas. From what you know, do you think this process has been generally good or bad for each of the following? (Please select one option on each row)

Glob_gen_a. [country]'s economy
