Shale gas is natural gas trapped under sedimentary rock, which is extracted using a method known as hydraulic fracturing, or "fracking". There are large reserves of shale gas in parts of the United Kingdom.

Generally speaking, do you support or oppose the extraction of shale gas?

Recently, a company pledged that if they were successful in applying for licences, they would give 6% of all revenue received to nearby local communities homeowners and landowners.

If this was the case, and they consulted with the community about the technology they used, would you support or oppose the extraction of shale gas?
