2. For the following question, by 'eye problem', we mean anything more severe than common eye problems like needing to wear glasses for long or short sightedness (e.g. conjunctivitis, pink eye, eye allergies etc.). By 'family', we mean your immediate family such as parents, brother, sister, child(ren) as well as your extended family (e.g. aunt, uncle, cousin, brother/ sister-in-law, etc). Including yourself, how many people in your family, if any, currently have or have ever had an eye problem?

Unweighted base	1129	483	646	73	169	202	130	555	189	276	398	266
<b>Base: All US adults</b>	1114	554	560	122	221	202	120	450	201	268	384	260
0 - i.e. no one suffers/ has suffered from eye problems	28%	26%	30%	35%	21%	30%	25%	30%	25%	33%	26%	29%

Please read the information below carefully before answering the questions that follow. Hepatitis C is an infection that affects more than 80 million people (1% of the world's population) and causes over 500,000 deaths a year, due to cancer and liver failure caused by the infection. Hepatitis B is an infection that affects more than 270 million people (4% of the world's population) and causes over 700,000 deaths a year, due to cancer and liver failure caused by the infection. Before taking this survey, were you aware of each of the following facts? (Please select one option on each row)

4\_1. Hepatitis C can be cured with new treatments

Unweighted base	1129	483	646	73	169	202	130	555	189	276	398	266
Base: All US adults	1114	554	560	122	221	202	120	450	201	268	384	260
Yes, I was aware of this	47%	47%	46%	32%	42%	40%	45%	56%	49%	42%	48%	47%
No, I was not aware of this	53%	53%	54%	68%	58%	60%	55%	44%	51%	58%	52%	53%

4\_2. Hepatitis B can be prevented by vaccination

Unweighted base	1129	483	646	73	169	202	130	555	189	276	398	266
Base: All US adults	1114	554	560	122	221	202	120	450	201	268	384	260
Yes, I was aware of this	57%	55%	60%	54%	56%	53%	57%	61%	64%	58%	57%	53%
No, I was not aware of this	43%	45%	40%	46%	44%	47%	43%	39%	36%	42%	43%	47%

Worldwide, more than 270 million people have hepatitis B and 80 million people have hepatitis C. We can now cure hepatitis C with medicines and prevent hepatitis B through vaccination. Knowing this, to what extent do you agree or disagree with the following statement?

5a\_1. Politicians should take responsibility for ensuring everyone who needs it, in their country, is treated for hepatitis C and/or vaccinated against hepatitis B

Unweighted base	1129	483	646	73	169	202	130	555	189	276	398	266
