Percentage change between the amount respondents originally paid in rent and the amount they paid in rent following their landlord raising it.

[Respondents who had not had their rent increased in the last 12 months, or for reasons other than their landlord raising their rent were excluded from this calculation; n=284]

****And now looking at all of the same changes we just asked you about together, collectively, how helpful will measures contained in this package be to you? If these changes would not be helpful to you because you don't need any help with your mortgage please choose the N/A option****

A 12 month minimum period from the first missed mortgage payment before a home is repossessed

Allowing people with mortgages to switch to an interest-only mortgage for up to six months, without needing a new affordability check or affecting their credit score

Allowing people with mortgages to temporarily extend their mortgage term for up to six months to reduce their monthly payment amount, without needing a new affordability check or affecting their credit score

Allowing people with mortgages coming towards the end of a fixed rate deal the chance to lock in a deal up to six months ahead, while also being able to apply for a better deal right up until their new term starts

Allowing people with mortgages who are worried about their mortgage repayments to call their lender for information and support, without any impact on their credit score

Allowing people with mortgages who are up-to-date with payments to switch to a new mortgage deal at the end of their existing fixed rate deal without another affordability check

[Asked to those who own with a mortgage; n=575]
