There are some resources and goods that governments think are strategically important for the country to make at home. There are others where governments think it is fine for the country to import, if imports bring down prices or are better quality.

For each of the following, please say if you think it is important we make it in the US, or whether it is acceptable to rely on imports.

There are some resources and goods that governments think are strategically important for the country to make at home. There are others where governments think it is fine for the country to import, if imports bring down prices or are better quality.

For each of the following, please say if you think it is important we make it in the US, or whether it is acceptable to rely on imports.
