In the following questions we are referring to wealth as the total value of all that is owned in Scotland including incomes, savings, money, assets and so on, not just the

Below you will see 5 charts which represent possible ways for wealth to be distributed amongst the population.

The different bars represent the Scottish population divided into five groups of equal number of people, each bar representing about a million Scots. The size of each bar shows how much wealth those people own. In each case the number of people represented by each bar is the same, but
