**More specifically, in England university education is currently funded through a system of tuition fees of up to £9,250 a year. Students receive loans to cover the fees at the time, which they have to start paying back when they earn £25,000 a year. Any money still outstanding after thirty years is written off. Do you think this is a fair or unfair way of funding university education?**

Look at the following list of health services, some of which are currently charged for, some of which are currently free for some or all users. In each case, please say whether you think this should be free for all users, whether it should be free for some users (such as the least well off or those with specific health needs) but charged for others, or whether all people should be charged for that service.

Thinking about NHS provision, on a scale of 0 to 10, where 0 means not important at all and 10 means extremely important, how important, if at all, are each of the following to you?

Being free at the point of delivery

Unweighted base	1789	609	457	160	745	655	784	1005	198	730	430	431	203	606	304	433	150	93	533	523	346	203	184
