Allowing automatic renewals for non-expired government IDs	30%	23%	13%	9%	25%
Requiring pharmaceutical companies to adopt uniform packaging for medications	29%	31%	6%	3%	32%
Funding vouchers for private schools in districts with low-quality public schools	27%	26%	14%	13%	19%
Setting a minimum annual salary for public school teachers of $100,000	26%	25%	16%	17%	17%
Increasing investment in quantum computing research	15%	28%	10%	4%	42%

YouGov Survey: Policy Support

YouGov

Interviewing Dates	May 9 - 13, 2024
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to November 1, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 31% Republican). The weights range from 0.12 to 6.507, with a mean of one and a standard deviation of 0.676.
Number of respondents	1160
Margin of error	± 3.5% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	90 questions not reported.

YouGov Survey: Policy Support
May 9 - 13, 2024 - 1160 U.S. adult citizens

YouGov

Interviewing Dates	May 9 - 13, 2024
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to November 1, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 31% Republican). The weights range from 0.12 to 6.507, with a mean of one and a standard deviation of 0.676.
Number of respondents	1160
Margin of error	$\pm$ 3.5% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	90 questions not reported.
