YouGov Survey: Presidential Attributes

YouGov

Sample	1000 U.S. Adult Citizens
Conducted	October 18 - 21, 2023
Margin of Error	±4.1%

1. Below are a number of statements that could describe a person.Please tell us whether or not you would object strongly to each statement if it were true about a U.S. president.
Adapted from a 1979 Gallup survey

	Object strongly	Not object strongly	Don't know
If they were divorced	9%	73%	18%
If they were not a member of a church	14%	68%	18%
If they told ethnic or racial jokes in private	60%	23%	17%
If they had a cocktail before dinner each night	11%	71%	19%
If they wore blue jeans occasionally in the oval office	16%	70%	14%
If they smoked marijuana occasionally	40%	41%	18%
If they use profane language in private	22%	61%	17%
If they had seen a psychiatrist	14%	64%	22%
If they use tranquilizers occasionally	44%	30%	27%

YouGov Survey: Presidential Attributes

Interviewing Dates	October 18 - 21, 2023
Target population	U.S. Citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to November 1, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 31% Republican). The weights range from 0.059 to 6.526, with a mean of one and a standard deviation of 0.873.
Number of respondents	1000
Margin of error	± 4.1% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	68 questions not reported.
