|                             |     |
|-----------------------------|-----|
| Gotten better .....         | 19% |
| Stayed about the same ..... | 37% |
| Gotten worse .....          | 44% |

11. If you had to say, how much discrimination do the following people face in America today?

|                        | A great deal | A fair amount | Not much | None at all |
|------------------------|--------------|---------------|----------|-------------|
| Black people           | 39%          | 32%           | 21%      | 8%          |
| Hispanic people        | 29%          | 38%           | 26%      | 8%          |
| Native American people | 23%          | 36%           | 32%      | 10%         |
| Asian people           | 14%          | 41%           | 36%      | 9%          |
| White people           | 10%          | 22%           | 37%      | 32%         |

12. According to the U.S. Census Bureau, by the year 2050, a majority of the population will be made up of people who are Black, Asian, Hispanic, and other racial minorities. In terms of its impact on the country, do you think this will be...?

*Adapted from a question by the Pew Research Center*

|                                      |     |
|--------------------------------------|-----|
| A very good thing .....              | 22% |
| A somewhat good thing .....          | 11% |
| Neither a good nor a bad thing ..... | 40% |
| A somewhat bad thing .....           | 11% |
| A very bad thing .....               | 5%  |
| Not sure .....                       | 10% |

13. Do you think this change in the U.S. population would lead to...?

*Adapted from a question by the Pew Research Center*

|                                                        |     |
|--------------------------------------------------------|-----|
| More conflicts between racial and ethnic groups .....  | 35% |
| Fewer conflicts between racial and ethnic groups ..... | 21% |
| Not much of an impact .....                            | 18% |
| Not sure .....                                         | 26% |

14. Do you think this change in the U.S. population would...?

*Adapted from a question by the Pew Research Center*

|                                              |     |
|----------------------------------------------|-----|
| Strengthen American customs and values ..... | 35% |
| Weaken American customs and values .....     | 26% |
| Not much of an impact .....                  | 16% |
| Not sure .....                               | 22% |

15. According to the U.S. Census Bureau, more people of different races are marrying each other these days than in the past. In terms of its impact on the country, do you think this is...?

*Adapted from a question by the Pew Research Center*

|                                    |     |
|------------------------------------|-----|
| A very good thing .....            | 28% |
| A somewhat good thing .....        | 16% |
| Neither a good nor bad thing ..... | 39% |
| A somewhat bad thing .....         | 5%  |
| A very bad thing .....             | 3%  |
| Not sure .....                     | 8%  |

16. Do you personally know any people who are married to someone of a different race than themselves? Select all that apply.

|                            |     |
|----------------------------|-----|
| Yes, me .....              | 7%  |
| Yes, a family member ..... | 29% |
| Yes, a close friend .....  | 31% |
| Yes, an acquaintance ..... | 41% |
| No .....                   | 19% |
| Not sure .....             | 8%  |

17. Do you think that discrimination against Black Americans in the following is currently a problem, was a problem in the past but isn't anymore, or was never a problem?

|                                 | Currently a problem | Was a problem but isn't anymore | Was never a problem | Not sure |

| <b>Target population</b>      | U.S. citizens, aged 18 and over                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Sampling method</b>        | Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Weighting</b>              | The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.051 to 6.011, with a mean of one and a standard deviation of 0.85. |
| <b>Number of respondents</b>  | 1,099                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Margin of error</b>        | ± 3.9 points (adjusted for weighting)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

## 12. Good or Bad if U.S. Is Majority Minority

According to the U.S. Census Bureau, by the year 2050, a majority of the population will be made up of people who are Black, Asian, Hispanic, and other racial minorities. In terms of its impact on the country, do you think this will be . . . ?

## 15. Good or Bad Racial Inter-marriage

According to the U.S. Census Bureau, more people of different races are marrying each other these days than in the past. In terms of its impact on the country, do you think this is...?

| <b>Target population</b>      | U.S. citizens, aged 18 and over                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Sampling method</b>        | Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Weighting</b>              | The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.051 to 6.011, with a mean of one and a standard deviation of 0.85. |
| <b>Number of respondents</b>  | 1,099                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Margin of error</b>        | ± 3.9 points (adjusted for weighting)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
