

YouGov Survey: Regulation of Artificial Intelligence (AI)

Sample 1043 U.S. adult citizens
 Conducted March 19 - 21, 2024
 Margin of Error $\pm 4\%$

1. Overall, do you think the technology industry should be...?

Much more regulated	20%
Somewhat more regulated	38%
No change in regulation	20%
Somewhat less regulated	6%
Much less regulated	2%
Not sure	14%

2. Would you support or oppose Congress doing the following?

	Strongly support	Somewhat support	Somewhat oppose	Strongly oppose	Not sure
Requiring companies to provide users with the ability to delete their personal data	67%	19%	4%	1%	8%
Requiring online platforms to avoid promoting to minors content about suicide, eating disorders, substance abuse, and sexual exploitation, as well as ads for tobacco and alcohol	57%	24%	7%	3%	9%
Requiring social media platforms to provide minors with options to protect their information and opt out of personalized algorithmic recommendations	57%	25%	4%	2%	12%
Requiring independent audits and research into how social media platforms affect the well-being of children and teens	53%	28%	6%	2%	10%
Requiring companies to provide sufficient transparency in the algorithms used to recommend content	49%	32%	4%	2%	13%
Requiring companies to regularly audit their algorithms for bias and discrimination	45%	28%	7%	5%	15%
Requiring commercial pornography websites to verify users are 18 or older by having them upload a government-issued ID	44%	20%	14%	10%	12%
Imposing stricter penalties on companies that engage in monopolistic practices in the tech industry	38%	31%	8%	3%	20%
Regulating the use of microtargeting in political advertising	37%	24%	9%	6%	25%

continued from previous page

Regulating the use of algorithms in high-stakes decision-making, such as hiring, mortgage-approval, or health care decisions

34% 26% 11% 7% 22%

3. Do you think that the effects of artificial intelligence (AI) on society will be...?

Very positive 7%
Somewhat positive 24%
Neither positive nor negative 18%
Somewhat negative 24%
Very negative 17%
Not sure 10%

4. Do you think that the effects of artificial intelligence (AI) on your own life will be...?

Very positive 7%
Somewhat positive 21%
Neither positive nor negative 32%
Somewhat negative 16%
Very negative 10%
Not sure 13%

5. How often do you use artificial intelligence (AI) tools?

Multiple times per day 3%
Daily 7%
Multiple times per week 7%
Weekly 6%
Multiple times per month 8%
Less frequently than monthly 17%
Never 34%
Not sure 17%

6. How much confidence do you have in the following?

	A great deal of confidence	A fair amount of confidence	Not much confidence	Not confidence at all	Not sure
That technology companies developing AI will do so responsibly	3%	25%	31%	30%	11%
The ability of the U.S. government to effectively regulate AI	7%	19%	35%	30%	9%

YouGov Survey: Regulation of Artificial Intelligence (AI)

7. Would you say that using artificial intelligence (AI) for the following is...?

	Always morally acceptable	Sometimes morally acceptable	Never morally acceptable	Not sure
To detect and report illegal content online	27%	43%	14%	16%
To simulate human conversation when lonely	16%	36%	26%	21%
To predict stock market trends	15%	38%	25%	22%
To write an email to a colleague	14%	42%	28%	16%
To assist with homework assignments	14%	40%	32%	13%
To match people on dating apps	13%	45%	22%	20%
To write a recommendation letter	13%	37%	33%	17%
To generate news summaries	12%	42%	27%	19%
To filter and edit photos for social media	12%	41%	29%	18%
To evaluate job applications	11%	41%	35%	14%
To assist in decision-making during medical procedures	9%	40%	30%	20%
To assist judges in delivering court verdicts	7%	24%	54%	15%
To predict who is most likely to commit crimes in the future	7%	25%	49%	19%
To re-create the voices and personalities of deceased people	6%	27%	50%	17%
To monitor citizens for signs of dissent or rebellion	6%	22%	54%	17%
To determine college admissions	6%	17%	60%	16%
To impersonate another person's voice or appearance	5%	14%	69%	12%
To genetically engineer human embryos	5%	19%	57%	19%
To create persuasive political propaganda	4%	22%	59%	15%
To create deepfakes in journalism	4%	11%	69%	16%

YouGov Survey: Regulation of Artificial Intelligence (AI)

Interviewing Dates	March 19 - 21, 2024
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to November 1, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 31% Republican). The weights range from 0.083 to 6.503, with a mean of one and a standard deviation of 0.847.
Number of respondents	1043
Margin of error	± 4% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	64 questions not reported.

YouGov Survey: Regulation of Artificial Intelligence (AI)

March 19 - 21, 2024 - 1043 U.S. adult citizens

Interviewing Dates	March 19 - 21, 2024
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to November 1, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 31% Republican). The weights range from 0.083 to 6.503, with a mean of one and a standard deviation of 0.847.
Number of respondents	1043
Margin of error	± 4% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	64 questions not reported.
