# YouGov <br> Holiday Debt 

Fieldwork Dates: 6th - 7th November 2018

## Conducted by YouGov

On behalf of Editorial
© Yougov plc 2018

## YouGov <br> What the world thinks

## BACKGROUND

This spreadsheet contains survey data collected and analysed by YouGov plc. No information contained within this spreadsheet may be published without the consent of YouGov Plc and the client named on the front cover
Methodology: This survey has been conducted using an online interview administered to members of the YouGov Plc panel of 1.2 million individuals who have agreed to take part in surveys. Emails are sent to panellists selected at random from the base sample. The e-mail invites them to take part in a survey and provides a generic survey link. Once a panel member clicks on the link they are sent to the survey that they are most required for, according to the sample
 respondents can be sent to any available survey. The responding sample is weighted to the profile of the sample definition
sample. The profile is normally derived from census data or, if not available from the census, from industry accepted data.
解
YouGov plc make every effort to provide representative information. All results are based on a sample and are therefore subur ssociated with sample-based information.
For further information about the results in this spreadsheet, please contact YouGov Plc +1888.729 .0773 or email omnibus.us@yougov.com quoting the survey details

## EDITOR'S NOTES - all press releases should contain the following information

All figures, unless otherwise stated, are from YouGov Plc. Total sample size was 1243 adults. Fieldwork was undertaken between 6 th -7 th November 2018. The survey was carried out online. The figures have been weighted and are representative of all US adults (aged 18+).

NOTE: All press releases or other publications must be checked by YouGov PIc before use. YouGov requires 48hours to check a press release unless otherwise agreed

- YouGov is registered with the Information Commissioner
- YouGov is a member of the British Polling Council

Any percentages calculated on bases fewer than 50 respondents must not be reported as they do not represent a wide enough cross-section of the target population to be considered statistically reliable. These figures will be italicised
