Interviewing Dates	September 18 - 24, 2026
Target population	U.S. adults, aged 18 and over. Respondents were selected from YouGov's opt-in panel to be representative of all U.S. adults, with an oversample of 18- to 29-year-old respondents.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the American Community Survey. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.134 to 5.341, with a mean of one and a standard deviation of 0.768.
Number of respondents	2,357
Margin of error	± 2.5 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	38 questions not reported.

The 19th / YouGov Poll
September 18 - 24, 2026 - 2,357 U.S. adults

Interviewing Dates	September 18 - 24, 2026
Target population	U.S. adults, aged 18 and over. Respondents were selected from YouGov’s opt-in panel to be representative of all U.S. adults, with an oversample of 18- to 29-year-old respondents.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the American Community Survey. Baseline party identification is the respondent’s most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.134 to 5.341, with a mean of one and a standard deviation of 0.768.
Number of respondents	2,357
Margin of error	± 2.5 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	38 questions not reported.
