Currently transgender people who wish to change their legal gender on official documents (e.g. birth certificate, passport) have to apply for a Gender Recognition Certificate.

This requires someone to have a diagnosis of gender dysphoria from a doctor, provide evidence they have lived in their new gender for at least two years, and make a declaration they intend to live in their new gender for the rest of their life. The application is then approved or rejected by a panel of legal and medical professionals.

In principle, do you think it should or should not be made easier for transgender people to change their legal gender?
