YouGov Survey: Self-Driving Vehicles
June 2 - 7, 2026 - 1,105 U.S. adult citizens

YouGov

1. Do you support or oppose "jaywalking" i.e. pedestrians crossing a road not at a pedestrian crossing, or when pedestrian lights are red, being a minor offense, punishable by a fine?

Strongly support	11%
Somewhat support	29%
Somewhat oppose	26%
Strongly oppose	23%
Don't know	12%

2. Typically, how often do you do the following?

	Never	Once or twice a month or less	One to two days a week	Three to four days a week	Five to six days a week	Every day	Don't know
Drive a car	15%	9%	10%	11%	17%	36%	3%
Ride in a car as a passenger (including e.g. taxis, ride shares like Uber)	12%	45%	20%	11%	5%	4%	3%
Ride on a bus	57%	29%	5%	3%	2%	2%	2%
Ride on a train	61%	31%	2%	2%	0%	1%	3%
Ride on a metro train or subway	63%	28%	3%	2%	1%	0%	3%

3. How comfortable or uncomfortable would you be riding in a self-driving car (i.e. a car that drives itself automatically, including steering, accelerating, braking, and following road and traffic rules, without a human driver)?

Very comfortable	10%
Fairly comfortable	21%
Fairly uncomfortable	21%
Very uncomfortable	42%
Don't know	6%

4. And more specifically, how comfortable or uncomfortable would you be riding in a self-driving car (i.e. a car that drives itself automatically, including steering, accelerating, braking, and following road and traffic rules, without a human driver) in each of the following places?

	Very comfortable	Fairly comfortable	Fairly uncomfortable	Very uncomfortable	Don't know
On the highway	10%	16%	17%	51%	6%
In city centers	9%	18%	18%	49%	7%
In your local area	12%	22%	20%	41%	5%
On country roads	12%	22%	21%	40%	6%

YouGov Survey: Self-Driving Vehicles
June 2 - 7, 2026 - 1,105 U.S. adult citizens

YouGov

5. If you had the choice, would you rather...

	A	B	Not sure
A) Drive yourself in a car, or B) be driven in a self-driving car	81%	13%	6%
A) Take a taxi/ride-share like Uber, or B) be driven in a self-driving car	69%	22%	9%

6. Do you think technology will or will not one day be good enough to allow self-driving each of the following to operate as safely as they do when there is a human driver?

	Will be good enough one day	Will never be good enough	Don't know
Self-driving metro trains or subways	49%	31%	19%
Self-driving trains	49%	32%	19%
Self-driving cars	47%	37%	16%
Self-driving buses	38%	43%	19%

7. If in 10 years most cars in the U.S. were self-driving cars, do you think things would be safer or less safe for...

	Much safer	Somewhat safer	Not much difference	Somewhat less safe	Much less safe	Don't know
Road users	10%	22%	14%	15%	25%	14%
Pedestrians	9%	19%	13%	18%	29%	13%

8. And as a driver, how comfortable or uncomfortable would you feel about sharing the road with...

	Very com-fortable	Fairly com-fortable	Fairly uncomfort-able	Very uncomfort-able	Don't know
Self-driving trucks	7%	16%	17%	51%	9%
Self-driving buses	8%	17%	18%	47%	10%
Self-driving cars	9%	25%	23%	35%	8%

YouGov Survey: Self-Driving Vehicles
June 2 - 7, 2026 - 1,105 U.S. adult citizens

YouGov

9. And do you think that driverless cars would have a positive or negative impact on each of the following, or do you think it wouldn't make much difference?

	Very positive	Fairly positive	Not much difference	Fairly negative	Very negative	Don't know
The ability of older and disabled people to get around	17%	32%	14%	9%	14%	12%
The environment	8%	19%	31%	11%	14%	16%
The cost of getting around	8%	18%	23%	16%	18%	17%
The level of traffic and congestion	7%	19%	26%	14%	19%	15%
The economy	6%	13%	25%	18%	20%	18%
Society in general	6%	17%	28%	18%	17%	13%
Jobs	4%	8%	16%	27%	29%	14%

10. And how comfortable or uncomfortable would you be riding in each of the following?

	Very comfortable	Fairly comfortable	Fairly uncomfortable	Very uncomfortable	Don't know
A self-driving metro train or subway (i.e. a metro train or subway that drives itself automatically, including stopping at stations and opening and closing doors, without a human driver)	10%	31%	19%	30%	10%
A self-driving train (i.e. a train that drives itself automatically, including stopping at stations and opening and closing doors, without a human driver)	11%	29%	20%	31%	8%
A self-driving bus (i.e. a bus that drives itself automatically, including steering, accelerating, braking, following road and traffic rules, and stopping at bus stops and opening and closing doors, without a human driver)	8%	19%	26%	40%	7%

YouGov Survey: Self-Driving Vehicles
June 2 - 7, 2026 - 1,105 U.S. adult citizens

11. And now imagining that each form of transport had a staff member on board who a) was able to manually operate the vehicle in case of issues and b) could assist passengers on board, how comfortable or uncomfortable would you be riding in each of the following?

	Very comfortable	Fairly comfortable	Fairly uncomfortable	Very uncomfortable	Don't know
A self-driving metro train or subway (i.e. a metro train or subway that drives itself automatically, including stopping at stations and opening and closing doors, without a human driver)	17%	34%	18%	24%	7%
A self-driving train (i.e. a train that drives itself automatically, including stopping at stations and opening and closing doors, without a human driver)	18%	32%	18%	24%	7%
A self-driving bus (i.e. a bus that drives itself automatically, including steering, accelerating, braking, following road and traffic rules, and stopping at bus stops and opening and closing doors, without a human driver)	14%	28%	22%	30%	6%

YouGov Survey: Self-Driving Vehicles
June 2 - 7, 2026 - 1,105 U.S. adult citizens

Interviewing Dates	June 2 - 7, 2026
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.052 to 6.601, with a mean of one and a standard deviation of 0.983.
Number of respondents	1,105
Margin of error	$\pm$ 4.1 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	60 questions not reported.

YouGov Survey: Self-Driving Vehicles
June 2 - 7, 2026 - 1,105 U.S. adult citizens

Interviewing Dates	June 2 - 7, 2026
Target population	U.S. citizens, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.052 to 6.601, with a mean of one and a standard deviation of 0.983.
Number of respondents	1,105
Margin of error	$\pm$ 4.1 points (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	60 questions not reported.
