

YouGov Survey: Vaccines

Sample 1067 U.S. adult citizens
Conducted April 1 - 4, 2025
Margin of Error ±4.1%

1. How serious of a problem do you think infectious diseases such as the measles are for the United States?

Very serious	38%
Somewhat serious	35%
Not very serious	16%
Not serious at all	5%
Not sure	6%

2. Do you think infectious diseases like measles are more or less of a threat to the U.S. than they were 50 years ago?

More of a threat	32%
About the same	21%
Less of a threat	38%
Not sure	9%

3. How likely do you think it is that the U.S. will experience a widespread outbreak of a new infectious disease in the next 10 years?

Very likely	35%
Somewhat likely	34%
Not very likely	16%
Not likely at all	4%
Not sure	10%

4. How likely do you think it is that in the next 10 years the U.S. will experience a widespread resurgence of an existing disease that that children are currently regularly vaccinated against?

Very likely	25%
Somewhat likely	33%
Not very likely	25%
Not likely at all	4%
Not sure	12%

5. Do you know anyone — including yourself, a friend, or family member — who has ever had the following disease?

	Yes	No	Not sure
COVID-19	83%	14%	3%
Chickenpox	74%	23%	4%
Influenza	73%	22%	6%
Shingles	53%	42%	5%
Measles, mumps, or rubella	38%	53%	8%
Hepatitis B	16%	71%	13%
Polio	15%	80%	5%
Human papillomavirus (HPV)	14%	74%	13%
Hepatitis A	10%	77%	14%
Diphtheria, tetanus, or pertussis	8%	82%	10%

6. Have you ever received the following type of vaccine?

	Yes	No	Not sure
COVID-19	73%	25%	2%
Measles, mumps, and rubella (MMR)	69%	21%	10%
Diphtheria, tetanus, pertussis (DTaP)	66%	22%	12%
Influenza	63%	32%	6%
Polio	58%	24%	17%
Chickenpox	46%	42%	12%
Hepatitis B	40%	40%	19%
Hepatitis A	32%	44%	23%
Shingles	31%	57%	12%
Human papillomavirus (HPV)	22%	62%	16%

7. Do you normally keep up to date in receiving recommended vaccines, or do you ever delay or skip some vaccines?

Normally keep up to date	51%
Have delayed or skipped some vaccines	36%
I do not get any vaccines	13%

8. Which, if any, of the following reasons why you have ever skipped, delayed, or decided not to get certain vaccines? Select all that apply.

Don't trust pharmaceutical companies	15%
Don't trust the government	14%
Forgot or didn't know I needed it	12%
Don't think I'm likely to get sick	9%
Vaccine not required for work or school	8%
Don't think vaccines are effective	8%
Have had an adverse reaction	7%
Cost or lack of insurance coverage	6%
Don't trust doctors	5%
Too busy	5%
Other	5%
Don't like being told what to do	4%
Fear of needles	4%
Have a medical condition that disallows it	3%
Religious beliefs	2%
Pregnant or breastfeeding	1%
None of the above	5%
Not asked - normally keeps up to to date with vaccines	51%

9. In which form would you generally prefer to receive a vaccine, if all options were available?

Injection	54%
Pill	22%
Nasal spray	4%
Would not receive any vaccines	11%
Not sure	10%

10. Have you ever had a negative reaction to receiving a vaccine?

Yes, a major negative reaction	6%
Yes, a minor negative reaction	26%
No	60%
Not sure	8%

11. Do you have any children under the age of 5?

Yes	9%
No	91%

12. Do you have any children ages 5 to 18?

Yes	17%
No	83%

13. Which comes closest to your view on the following, even if neither is exactly right?

	The benefits outweigh the risks	The risks outweigh the benefits	Not sure
Childhood vaccines	71%	14%	15%
Adult booster shots	60%	19%	21%
COVID-19 vaccines	51%	30%	19%

14. Regardless of their risks or side-effects, do you think that vaccines reduce the chance that a person will get a disease?

Yes	66%
No	19%
Not sure	15%

15. As far as you know, which of the following best describes the current role of the federal government in vaccines for students in public schools?

The federal government requires school-age children to get certain vaccines	47%
The federal government recommends certain vaccines for school-age children but does not require them	28%
The federal government plays no role in requiring or recommending vaccines for school-age children	6%
Not sure	19%

16. Do you think the issue of whether children should be vaccinated for diseases like measles, mumps, and whooping cough is more:

A matter of public health	70%
A matter of personal choice	22%
Not sure	8%

17. Which comes closer to your opinion of childhood vaccines for diseases like measles, mumps, and whooping cough?

The science supporting the safety of childhood vaccines is well established	64%
The safety of childhood vaccines is an issue requiring further debate	21%
Not sure	15%

18. Do you think getting the following vaccines, for children who are eligible for them, should be a requirement to attend public schools?

	Should be required	Should not be required	Not sure
Measles, mumps, and rubella (MMR)	75%	13%	12%
Chickenpox	66%	20%	14%
Polio	64%	18%	17%
Diphtheria, tetanus, pertussis (DTaP)	63%	17%	20%
COVID-19	44%	40%	16%
Influenza	44%	38%	18%
Hepatitis B	42%	28%	30%
Hepatitis A	42%	27%	31%
Human papillomavirus (HPV)	38%	33%	28%
Shingles	29%	45%	26%

19. With certain exceptions, children must be vaccinated to attend public school. Which of the following do you think justifies exempting a child from getting immunizations? Select all that apply.

A medical condition	72%
Religious beliefs	33%
Concern for the side-effects	29%
Parents do not need a reason	17%
Philosophical beliefs	10%
To avoid painful injections	6%
None of the above	16%

20. Do you know anyone who has chosen not to vaccinate their children against childhood diseases, like measles, mumps, and whooping cough?

Yes	22%
No	62%
Not sure	16%

21. Are there any vaccines you received as a child that you wish you hadn't gotten?

Yes	6%
No	79%
Not sure	15%

22. If a teenager wants to receive a vaccine, but their parents do not want them to receive it, do you think doctors should...?

Be allowed to give the vaccine	44%
Be banned from giving the vaccine	28%
Not sure	28%

23. If a teenager does not want to receive a vaccine, but their parents want them to receive it, do you think doctors should...?

- Be allowed to give the vaccine 52%
- Be banned from giving the vaccine 16%
- Not sure 31%

24. How much trust and confidence do you have in the government when it comes to setting childhood vaccination policies?

- A great deal 15%
- A fair amount 30%
- Not very much 26%
- None at all 18%
- Not sure 10%

25. How much trust and confidence do you have in your state's government when it comes to setting childhood vaccination policies?

- A great deal 17%
- A fair amount 34%
- Not very much 23%
- None at all 15%
- Not sure 10%

26. How much trust and confidence do you have in the following when it comes to vaccines?

	A great deal	A fair amount	Not very much	None at all	Not sure
Your family's doctors	44%	37%	8%	6%	6%
Scientific researchers	39%	30%	15%	8%	8%
The Centers for Disease Control and Prevention (CDC)	33%	30%	15%	14%	8%
The World Health Organization (WHO)	31%	25%	16%	21%	8%
The National Institutes of Health (NIH)	29%	31%	15%	14%	12%
State and local public health departments	25%	39%	18%	11%	7%
The Department of Health and Human Services (HHS)	25%	30%	22%	13%	10%
The Food and Drug Administration (FDA)	23%	33%	19%	15%	10%
Your friends and family	21%	43%	21%	6%	9%
Pharmaceutical companies	11%	27%	29%	24%	9%
Robert F. Kennedy, Jr.	11%	19%	12%	43%	14%
Donald Trump	10%	17%	14%	50%	9%
Health insurance companies	9%	24%	31%	26%	10%
The news media	6%	19%	29%	38%	9%

continued on the next page ...

continued from previous page

Mehmet Oz	5%	14%	19%	37%	25%
Social media	3%	10%	29%	50%	8%

27. Generally speaking, how much trust do you have that what scientists say is accurate and reliable?

A lot	46%
A little	37%
None at all	10%
Not sure	7%

28. When you see information about scientific studies, how often do you worry that the findings of those studies are influenced by pressure from the companies or organizations sponsoring them?

Often	25%
Sometimes	44%
Rarely	15%
Never	6%
Not sure	9%

29. Do you think that federal funding for vaccine development and distribution should be...?

Increased	43%
Kept the same	28%
Decreased	10%
Not sure	19%

30. Do you think the following statement is...?

	Definitely true	Probably true	Probably false	Definitely false	Not sure
The COVID-19 vaccine is the deadliest vaccine ever created	11%	14%	15%	44%	16%
Vaccines can permanently alter a person's DNA	10%	18%	19%	34%	19%
More people have died from COVID-19 vaccines than from the COVID-19 virus	8%	12%	17%	46%	16%
Vaccines make the immune system weaker, not stronger	8%	15%	21%	38%	17%
Vaccines have been shown to cause autism	8%	15%	16%	39%	23%
The U.S. government is using vaccines to microchip the population	4%	10%	19%	52%	14%

31. Which group do you think is MORE likely to have doubts about childhood vaccines?	
Liberals	10%
Conservatives	50%
Neither	13%
Not sure	26%
32. Do you think that, overall, COVID-19 vaccines...?	
Prevented many more deaths than they caused	47%
Prevented somewhat more deaths than they caused	9%
Prevented about as many deaths as they caused	7%
Caused somewhat more deaths than they prevented	7%
Caused many more deaths than they prevented	12%
Not sure	17%
33. If there were a new infectious-disease pandemic in the U.S., do you think vaccine development should be...?	
The government's top priority for fighting the disease	45%
One of several government priorities for fighting the disease	33%
Not a government priority for fighting the disease	8%
Not sure	14%

Interviewing Dates	April 1 - 4, 2025
Target population	U.S. Citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 32% Republican). The weights range from 0.051 to 6.049, with a mean of one and a standard deviation of 0.926.
Number of respondents	1067
Margin of error	± 4.1% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	90 questions not reported.

YouGov Survey: Vaccines

April 1 - 4, 2025 - 1067 U.S. adult citizens

1. Infectious Disease Problem

How serious of a problem do you think infectious diseases such as the measles are for the United States?

	Total	Gender		Age (4 category)				Race (4 category)

YouGov Survey: Vaccines

April 1 - 4, 2025 - 1067 U.S. adult citizens

Interviewing Dates	April 1 - 4, 2025
Target population	U.S. Citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens.
Weighting	The sample was weighted according to gender, age, race, education, 2024 presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 32% Republican). The weights range from 0.051 to 6.049, with a mean of one and a standard deviation of 0.926.
Number of respondents	1067
Margin of error	± 4.1% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	90 questions not reported.
