YouGov Survey: Weight and Weight Loss Drugs

YouGov

Sample   1001 U.S. Adult Citizens
Conducted   March 11 - 13, 2024
Margin of Error ±3.9%

1. How often do you feel pressure to conform to societal standards of body size or weight?

Almost always 8%
Usually 11%
Sometimes 23%
Rarely 18%
Never 34%
Not sure 5%

2. How often do you compare your body size or weight to others?

Almost always 11%
Usually 11%
Sometimes 26%
Rarely 22%
Never 27%
Not sure 3%

3. Have you personally ever faced prejudice in the following settings as a result of your weight? Select all that apply.

The job market 11%
Your family 18%
Dating 18%
The health care system 14%
The education system 6%
Public transportation 6%
Restaurants and stores 10%
None of the above 59%
Prefer not to say 5%

4. Which comes closer to your view about obesity?

It is a complex chronic disease 33%
It is the result of a lack of self-control 40%
Neither 27%

YouGov Survey: Weight and Weight Loss Drugs

5. How much of a role do you think the following plays in causing obesity?

	Very important role	Somewhat important role	Not very important role	No role	Not sure
Genetics	40%	40%	10%	3%	6%
Environmental factors	23%	35%	20%	13%	9%
Lifestyle choices	63%	26%	4%	2%	5%
The food industry	49%	33%	8%	5%	5%
Access to health care	32%	33%	20%	8%	7%
Mental health issues	40%	37%	10%	6%	8%

6. How strongly linked do you think obesity is with health outcomes?

Very strongly linked 53%
Somewhat strongly linked 34%
Not very strongly linked 4%
Not at all linked 1%
Not sure 7%

7. Do you personally know anyone who is considered clinically obese? Select all that apply.

Yes, me 20%
Yes, a family member 25%
Yes, a friend 26%
Yes, an acquaintance 23%
None of the above 35%
Prefer not to say 5%

8. Do you think there is an epidemic of obesity in the United States?

Yes 69%
No 12%
Not sure 19%

9. How supportive do you think society is of people who are obese attempting to lose weight?

Very supportive 14%
Somewhat supportive 38%
Somewhat unsupportive 20%
Very unsupportive 14%
Not sure 14%

10. Thinking generally of people who go on weight-reduction diets, do you think those diets are. . . ?

Usually successful 16%
Result in only temporary weight loss 49%
Usually not successful 21%
Not sure 15%

11. In your opinion, what role should the following play for a person who is obese and wants to lose weight?

	Primary method	Supple-mentary method	Used only as a last resort	Should not be used	Not sure
Increased physical activity	60%	26%	5%	2%	7%
Dietary changes	71%	17%	3%	3%	6%
Weight loss surgery	8%	15%	55%	12%	10%
Prescription weight loss drugs	8%	32%	35%	14%	11%
Behavioral therapy	27%	46%	7%	4%	15%
Commercial weight loss programs	10%	43%	17%	15%	15%

12. Have you ever done any of the following in an attempt to lose weight?

Increased physical activity 51%
Dietary changes 55%
Weight loss surgery 5%
Prescription weight loss drugs 9%
Behavioral therapy 8%
Commercial weight loss programs 15%
None of the above 13%
I've never tried to lose weight 18%

13. How much have you heard about or read in the news recently about an antidiabetic and weight loss drug called semaglutide (sold under the brand names Ozempic, Wegovy, and Rybelsus)?

A lot 30%
A little 40%
Nothing at all 30%

14. Do you personally know anyone who has taken semaglutide (sold under the brand names Ozempic, Wegovy, and Rybelsus) for weight loss purposes? Select all that apply.

Yes, me 3%
Yes, a family member 11%
Yes, a friend 10%
Yes, an acquaintance 6%
None of the above 71%
Prefer not to say 3%

15. Semaglutide causes people to lose weight by suppressing their appetite and by slowing the rate at which food empties out of the stomach. Possible side effects include nausea, diarrhea, vomiting, and constipation. If semaglutide were available to you, how interested would you be in taking it to lose weight?
Among people who haven't taken it before

Very interested 9%
Somewhat interested 16%
Not very interested 14%
Not at all interested 50%
Not sure 11%

16. How safe or unsafe do you think the weight loss drug semaglutide is?
Asked of people who have heard at least something about semaglutide

Very safe 7%
Somewhat safe 24%
Somewhat unsafe 28%
Very unsafe 14%
Not sure 27%

17. How effective at helping people lose weight do you think the weight loss drug semaglutide is?
Asked of people who have heard at least something about semaglutide

Very effective 18%
Somewhat effective 40%
Not very effective 8%
Not at all effective 4%
Not sure 30%

18. Do you think that the development of weight loss drugs such as semaglutide is overall a good or bad thing for society?

Good thing 24%
Neither good nor bad 30%
Bad thing 23%
Not sure 23%

19. Thinking about people who are obese using drugs such as semaglutide to lose weight, would you say that. . . ?

The benefits significantly outweigh the risks 9%
The benefits somewhat outweigh the risks 16%
The benefits and risks are balanced 18%
The risks somewhat outweigh the benefits 18%
The risks significantly outweigh the benefits 14%
Not sure 26%

20. Do you think that access to weight loss drugs such as semaglutide should. . . ?

Be much more regulated 25%
Be somewhat more regulated 26%
Have no change in regulation 16%
Be somewhat less regulated 7%
Be much less regulated 4%
Not sure 22%

21. Do you think that prescriptions for weight loss drugs such as semaglutide should be available via telehealth, or only after seeing a health care provider in person?

Should be available via telehealth 21%
Should only be available in person 54%
Not sure 25%

22. Should prescription weight loss drugs be covered by private insurance?

Yes 58%
No 15%
Not sure 27%

23. Should prescription weight loss drugs be covered by Medicaid?

Yes 56%
No 21%
Not sure 23%

24. The American Pediatric Association recently included weight loss drugs and weight loss surgery as part of a set of treatments that physicians should consider for children with obesity. Do you agree or disagree that the following should be part of a set of treatments that physicians should consider for children with obesity?

	Strongly agree	Somewhat agree	Somewhat disagree	Strongly disagree	Not sure
Weight loss drugs	9%	28%	18%	27%	18%
Weight loss surgery	8%	14%	20%	41%	16%

25. How would you describe your current overall health?

Excellent 12%
Very good 24%
Good 38%
Fair 21%
Poor 4%
Prefer not to say 2%

26. How would you describe your current body weight?

Obese …………………………………………………………………………10%
Overweight …………………………………………………………………………33%
Healthy weight …………………………………………………………………………46%
Underweight …………………………………………………………………………5%
Not sure …………………………………………………………………………4%
Prefer not to say …………………………………………………………………………3%

Interviewing Dates	March 11 - 13, 2024
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to November 1, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 31% Republican). The weights range from 0.115 to 6.513, with a mean of one and a standard deviation of 0.745.
Number of respondents	1001
Margin of error	$\pm$ 3.9% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	63 questions not reported.

15. Interest in New Weight Loss Drug Semaglutide

Semaglutide causes people to lose weight by suppressing their appetite and by slowing the rate at which food empties out of the stomach. Possible side effects include nausea, diarrhea, vomiting, and constipation. If semaglutide were available to you, how interested would you be in taking it to lose weight?

Among people who haven't taken it before

	Total	Gender		Age (4 category)				Race (4 category)			
		Male	Female	18-29	30-44	45-64	65+	White	Black	Hispanic	Other
Very interested	9%	7%	10%	11%	13%	8%	4%	9%	10%	6%	*

YouGov Survey: Weight and Weight Loss Drugs
March 11 - 13, 2024 - 1001 U.S. adult citizens

Interviewing Dates	March 11 - 13, 2024
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to November 1, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 31% Republican). The weights range from 0.115 to 6.513, with a mean of one and a standard deviation of 0.745.
Number of respondents	1001
Margin of error	± 3.9% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	63 questions not reported.
