If daylight saving time were to be abolished, a decision will have to be made on whether to stay permanently on "winter time" or "summer time".

If you had to choose between these, which would you prefer?

Winter time - sunrise is earlier in the mornings (particularly in winter), but sunset is earlier in the evenings (particularly in summer)	23	24	37	33	51	26	27
Summer time - sunset is later in the evenings (particularly in summer), but sunrise is later in the mornings (particularly in winter)	59	61	48	45	33	64	59
