

Sample 2,190 Adults
Margin of Error ±2.3%

2. Overall, how would you say things are going for the U.S. in its efforts to deal with the outbreak of coronavirus?

Very well	13%
Somewhat well	30%
Somewhat badly	32%
Very badly	25%

3. Do you think the coronavirus outbreak is...

A crisis	51%
A very serious problem, but not a crisis	32%
A somewhat serious problem	11%
Not much of a problem	6%

4. How would you rate the job Donald Trump is doing handling the coronavirus outbreak?

Very good	28%
Somewhat good	25%
Somewhat bad	15%
Very bad	32%

5. How would you rate the job Congress is doing handling the coronavirus outbreak?

Very good	9%
Somewhat good	43%
Somewhat bad	30%
Very bad	18%

6. Do you approve or disapprove of Congress' plan to send checks to middle- and lower- income Americans, to try to help them offset some of the economic impact of the outbreak?

Approve	85%
Disapprove	15%

7. Looking back now, do you think the Trump Administration was:

Prepared to deal with this outbreak as it was starting	34%
Unprepared to deal with this outbreak as it was starting	66%

8. For each of these, thinking about the way you've heard them describe the coronavirus outbreak, would you say they are overreacting, describing things about right, or as not taking it seriously enough?

	Overreacting	About right	Not taking it seriously enough
The national media	45%	47%	8%
The Trump Administration	6%	51%	43%
Medical and health officials	8%	85%	7%
Your state and local officials	17%	68%	15%
Your friends and family	15%	67%	18%

9. Over the past week, how often have you felt...

	All the time	Pretty often	Once in a while	Not at all
Happy	13%	41%	34%	13%
Scared	8%	17%	37%	38%
Nervous	12%	23%	39%	27%
Stressed	17%	26%	35%	21%
Calm	19%	43%	27%	11%
Hopeful	21%	34%	31%	14%
Lonely	10%	15%	25%	50%
Angry	7%	19%	39%	35%

10. Which of the following describes how you've felt recently when reading or hearing news about the coronavirus outbreak and its impact in the U.S? (Check all that apply)

Disbelief that it is really happening	23%
Anger that it has happened	21%
Determination to fight it	28%
Accepting it and just doing what I can to stay safe	65%
Hopeful it will be contained	44%

11. For each of these, which are you optimistic about, and which are you pessimistic about?

	Optimistic	Pessimistic
The Trump Administration's ability to handle the outbreak	54%	46%
Scientists' ability to find a cure or vaccine for coronavirus	82%	18%
Your local hospitals' and healthcare system's ability to handle an outbreak	65%	35%
Americans' ability to do what's needed to stop the spread of the virus	59%	41%

12. Who do you trust and not trust to give you accurate information about the virus and what to do during the outbreak? (If you are not familiar with one of them, simply skip that item.)

	Trust	Don't trust
Donald Trump	44%	56%
Your state's governor	66%	34%
Religious leaders and clergy	51%	49%
The Centers for Disease Control (CDC)	82%	18%
Medical and health professionals	88%	12%
National media	43%	57%
Social media and online sources	23%	77%
Your friends and family	73%	27%

13. Are you doing these things more or less than you used to?

	More	Same	Less
Watching the news	36%	49%	15%
Following politics	22%	61%	18%
Watching movies and entertainment	36%	54%	10%
Talking to friends and family	29%	61%	10%

14. Are you concerned, or not concerned, about yourself personally or a close family member getting the coronavirus?

Very concerned	30%
Somewhat concerned	41%
Not very concerned	20%
Not at all concerned	9%

15. As you may know, many Americans have been told to stay home if they can, because of the outbreak. Which of these best describes you these days?

Living normally, coming and going as usual	10%
Still going out, but being careful when I do	23%
Only going out when I absolutely have to	55%
Not leaving home	12%

16. When do you think the coronavirus will be contained in the U.S., to the point that most activities like social gatherings, workplaces, and sporting events can return to normal?

It is already	4%
In the next few weeks	23%
In the next few months	47%
In the next year	17%
Longer than that	5%
Never	3%

17. No one really knows, but just your best guess – how do you think we'll look back on this moment?

It was a defining event that changed the country and a generation forever	40%
It was a big challenge that changed things for a while, but not permanently for most people	44%
It was just one of many challenges that America faced, not one that changed the country	15%

18. If a test for the coronavirus were easily available and free to you would you get one now?

Yes, I would	57%
No, I wouldn't	43%

19. Do you have school- or college-age children currently at home because their school has been cancelled?

Yes	31%
No	69%

20. Are they...

Asked of those with school- or college-age children currently at home because their school has been cancelled

Doing remote learning	68%
Not doing remote learning	32%

22. Since the coronavirus outbreak, which describes your current work situation?

Able to work from home or remotely, and doing so	18%
Able to work from home or remotely, but choosing not to	4%
Not able to work from home, and still going to work	16%
Not able to work from home, and not going to work	13%
Was not working outside the home before / am retired	36%
Something else	13%

24. In general, how would you describe your own political viewpoints?

Very liberal	11%
Somewhat liberal	14%
Moderate	28%
Somewhat conservative	16%
Very conservative	15%
Not sure	15%

Other questions held for future release.

2. Efforts to Deal with Outbreak

Overall, how would you say things are going for the U.S. in its efforts to deal with the outbreak of coronavirus?

	Total	Gender		Age Group				Race/Ethnicity

HOW THE POLL WAS CONDUCTED AND THE MARGIN OF ERROR CALCULATED

March 24, 2020

The CBS News survey is conducted by YouGov using a nationally representative sample of 2,190 U.S. adult residents interviewed online between March 21-23, 2020.

This sample was weighted according to gender, age, race, and education based on the American Community Survey, conducted by the U.S. Bureau of the Census, as well as 2016 Presidential vote and registration status. Respondents were selected from YouGov's opt-in panel to be representative of all U.S. residents. The weights range from 0.3 to 3.0, with a mean of 1 and a standard deviation of 0.4.

The *margin of error* (a 95% confidence interval) for a sample percentage p based upon the entire sample is approximately 2.3%. It is calculated using the formula

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + CV^2}{n}}$$

where CV is the coefficient of variation of the sample weights and n is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
