CBS News Poll
March 31-April 1, 2020

YouGov

Sample	2,236 Adults
Margin of Error	±2.4%

4. Overall, do you approve or disapprove of the $2 trillion economic relief package recently passed by Congress?

Approve	81%
Disapprove	19%

5. Do you think the relief package will end up being:

More money than was necessary to help the economy	13%
About the right amount of money to help the economy	30%
Not enough money to help the economy	57%

6. From what you know, do you think you and your family will receive some direct financial assistance from the economic relief package?

Yes, expect to	53%
No, don't expect to	21%
Not sure	26%

9. Over the past week, how often have you felt...

	All the time	Pretty often	Once in a while	Not at all
Happy	10%	39%	37%	14%
Scared	10%	20%	35%	35%
Nervous	11%	25%	37%	27%
Stressed	18%	26%	37%	20%
Calm	18%	41%	29%	12%
Hopeful	20%	31%	34%	16%
Lonely	9%	16%	29%	46%
Angry	9%	23%	37%	31%

10. Do you think the financial impact brought on by the coronavirus outbreak is mostly affecting people who are...

Poor	39%
Middle-class	25%
Wealthy	3%
All of them equally	33%

11. Do you think the health risks from coronavirus is mostly affecting people who are...

Poor	26%
Middle-class	12%
Wealthy	3%
All of them equally	59%

14. In which, if any, of these ways has the coronavirus directly impacted your life? Check all that apply. If none of them have had impact, just leave them blank.

You've lost a job directly because of the outbreak	15%
You're working at a job that might expose you to it	20%
Your community has been ordered to stay home by a governor or local official	74%
You or someone you know has gotten ill from it	13%

15. Do you think private companies that ask people to go to work during the outbreak...?

Should increase their employees' pay during this time	74%
Do not need to increase their employees' pay during this time	26%

26. As you may know, many Americans have been told to stay home if they can, because of the outbreak. Which of these best describes you these days?

Living normally, coming and going as usual	6%
Still going out, but being careful when I do	16%
Only going out when I absolutely have to	65%
Not leaving home	13%

27. Since the coronavirus outbreak, which describes your current work situation?

Able to work from home or remotely, and doing so	18%
Able to work from home or remotely, but choosing not to	4%
Not able to work from home, and still going to work	17%
Not able to work from home, and not going to work	15%
Was not working outside the home before / am retired	32%
Something else	14%

28. How concerned are you that in the next few months you, or someone in your household, may lose a job or have a major reduction in paid work hours because of the coronavirus outbreak?

Very concerned	22%
Somewhat concerned	23%
Not too concerned	21%
Not at all concerned	22%
Already lost a job	7%
Already got reduced hours	5%

Other questions held for future release.

HOW THE POLL WAS CONDUCTED AND THE MARGIN OF ERROR CALCULATED

April 2, 2020

The CBS News survey is conducted by YouGov using a nationally representative sample of 2,236 U.S. adult residents interviewed online between March 31-April 1, 2020. Respondents from the first wave fielded March 21-23, 2020 were recontacted to participate. Of the 2,190 respondents in the first wave, 1,107 were re-interviewed — a recontact rate of 51%.

This sample was weighted according to gender, age, race, and education based on the American Community Survey, conducted by the U.S. Bureau of the Census, as well as 2016 Presidential vote and registration status. Respondents were selected from YouGov's opt-in panel to be representative of all U.S residents. The weights range from 0.3 to 3.5, with a mean of 1 and a standard deviation of 0.6.

The *margin of error* (a 95% confidence interval) for a sample percentage p based upon the entire sample is approximately 2.4%. It is calculated using the formula

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + \mathsf{CV}^2}{n}}$$

where CV is the coefficient of variation of the sample weights and n is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
