CBS News Poll
May 11-13, 2020

YouGov

Sample	2,000 Adults
Margin of Error	±2.7%

1. How would you rate the condition of the national economy today?

Very good	4%
Fairly good	16%
Fairly bad	39%
Very bad	33%
Not sure	8%

2. Overall, how would you say things are going for the U.S. in its efforts to deal with the outbreak of coronavirus?

Very well	10%
Somewhat well	29%
Somewhat badly	34%
Very badly	26%

3. How would you rate the job Donald Trump is doing handling the coronavirus outbreak?

Very good	23%
Somewhat good	20%
Somewhat bad	18%
Very bad	39%

4. If you had to choose, what should be the top priority for the country right now?

Try to get the economy going by sending people back to work, even if it means more people might be exposed to coronavirus	35%
Try to slow the spread of coronavirus by keeping people home and social distancing, even if the economy is hurt in the short term	65%

5. Which better describes why you feel that way?
Among those who say the economy should be the top priority

The risk from the virus is high, but the economic damage is even higher	42%
The risk from the virus is low, and the economic damage is high	58%

6. Which better describes why you feel that way?
Among those who say slowing the spread of the virus should be the top priority

The economic damage is big, but the health risks are even bigger	76%
The economic damage will be small or short-term, and the health risks are big	24%

7. Over the next few months, do you expect the coronavirus outbreak to get...

Better than it is now	34%
Worse than it is now	36%
Continue about as it is now	29%

8. Over the next few months, do you expect the U.S. economy to get...

Better than it is now	36%
Worse than it is now	36%
Continue about as it is now	28%

9. Which of these do you think people have a personal responsibility for, or not?

	Responsibility	Not a responsibility
Helping prevent spreading coronavirus to others	92%	8%
Protecting themselves against coronavirus	94%	6%
Going back to work to help the economy	54%	46%
Shop at local businesses to help the economy	73%	27%

10. How would you rate the job Donald Trump is doing handling the impact to the U.S. economy caused by the coronavirus outbreak?

Very good	21%
Somewhat good	25%
Somewhat bad	21%
Very bad	32%

15. Which comes closest to your view. As a society, what should the U.S. ask of its people right now:

Ask some people to take on risk of getting and spreading coronavirus, for the sake of the national economy	9%
Allow people to voluntarily take on risk of getting and spreading coronavirus, if they want, for the sake of the national economy	41%
Not ask or allow people to take on risk of getting and spreading coronavirus, no matter the implications for the national economy	50%

19. How would you rate the job your state's governor is doing handling the coronavirus outbreak?

Very good	28%
Somewhat good	38%
Somewhat bad	20%
Very bad	14%

20. Who do you trust and not trust to give you accurate information about the virus and what to do during the outbreak? (If you are not familiar with one of them, simply skip that item.)

	Trust	Don't trust
Donald Trump	38%	62%
Your state's governor	61%	39%
Mike Pence	39%	61%
Medical and health professionals	84%	16%
Anthony Fauci	62%	38%
National media	39%	61%

21. How comfortable would you, personally, feel going out to public places and being around crowds if all stay-at-home restrictions were lifted right now?

Very comfortable	15%
Somewhat comfortable	24%
Not very comfortable	30%
Not at all comfortable	31%

22. Would you favor or oppose a national coronavirus testing and tracing program that identifies and contacts people who may have been exposed to coronavirus?

Favor	69%
Oppose	31%

23. What needs to happen before you feel totally comfortable going out and being in crowded places again? Check all that apply.

You would feel comfortable right now	21%
After medical authorities say it is safe	45%
After government authorities say it is safe	18%
After a treatment or vaccine is found for coronavirus	56%
After a virus testing or tracking program is in place	36%

25. When you do go out now, do you wear a mask, or a covering for your mouth and nose?

Always	44%
Most of the time	25%
Once in a while	15%
Never	11%
Don't go out at all	5%

26. Which describe your reasons why? CHECK ALL THAT APPLY:
Among those who never wear a mask or only wear a mask once in a while

It's my freedom of choice not to	45%
My area doesn't have a lot of coronavirus cases	35%
I am healthy and not likely to have or get coronavirus	34%
I'm making a statement that I am not afraid	22%
Masks are uncomfortable	37%
Masks are just being promoted by liberals and the media	24%
I'm not allowed to wear one at work, or can't do my job with one	7%
I don't have one	20%

27. Which describe your reasons why? CHECK ALL THAT APPLY:
Among those who always wear a mask or wear a mask most of the time

Trying not to get coronavirus	75%
Concerned about spreading coronavirus to others	62%
To show solidarity in fight against coronavirus	48%
It's the rule in my community, state, or places I visit	53%

29. In terms of direct impact on your own finances, like income or ability to pay bills, how long can the lockdowns and stay-at-home orders across the U.S. go on, before they impact you?

Is already impacting your finances	36%
Can go for another week or less before they impact finances	7%
Go go on another few weeks before they impact finances	15%
Can go on for months before they impact finances	23%
Will probably never impact your finances	19%

35. Is your view of Anthony Fauci:

Favorable	46%
Unfavorable	14%
Undecided/Neutral	22%
Haven't heard enough about him	18%

37. When do you think the coronavirus will be contained in the U.S., to the point that most activities like social gatherings, workplaces, and sporting events can return to normal?

It is already	9%
In the next few weeks	11%
In the next few months	28%
In the next year	31%
Longer than that	17%
Never	4%

38. How concerned are you that in the next few months you, or someone in your household, may lose a job or have a major reduction in paid work hours because of the coronavirus outbreak?

Very concerned	19%
Somewhat concerned	26%
Not too concerned	20%
Not at all concerned	21%
Already lost a job	7%
Already got reduced hours	6%

39. Do you expect that job will rehire you or increase your hours when stay-at-home orders and lockdowns are lifted?

Among those who have already lost a job or already had their hours reduced

Yes	27%
Maybe	41%
No	32%

40. Are you concerned, or not concerned, about yourself personally or a close family member getting the coronavirus?

Very concerned	32%
Somewhat concerned	40%
Not very concerned	18%
Not at all concerned	9%

42. Have you or someone you personally know been diagnosed with coronavirus, or gotten ill from what doctors believed was coronavirus?

Yes	25%
No	75%

43. From what you know, have there been confirmed cases of coronavirus in your community?

Many	25%
A few	46%
None	11%
Not sure	18%

44. In general, how would you describe your own political viewpoints?

Very liberal	13%
Somewhat liberal	15%
Moderate	32%
Somewhat conservative	15%
Very conservative	13%
Not sure	12%

Other questions held for future release.

HOW THE POLL WAS CONDUCTED AND THE MARGIN OF ERROR CALCULATED

May 14, 2020

The CBS News survey is conducted by YouGov using a nationally representative sample of 2,000 U.S. adult residents interviewed online between May 11-13, 2020.

This sample was weighted according to gender, age, race, and education based on the American Community Survey, conducted by the U.S. Bureau of the Census, as well as 2016 Presidential vote and registration status. Respondents were selected from YouGov's opt-in panel to be representative of all U.S residents. The weights range from 0.1 to 5.0, with a mean of 1 and a standard deviation of 0.7.

The *margin of error* (a 95% confidence interval) for a sample percentage p based upon the entire sample is approximately 2.7%. It is calculated using the formula

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + \mathsf{CV}^2}{n}}$$

where CV is the coefficient of variation of the sample weights and n is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
