CBS News Poll – March 24-26, 2025
Adults in the U.S.

YouGov®

Sample   2,351 Adults in the U.S.
Margin of Error   ±2.5 points

---

26. Do you feel you have a good understanding of what artificial intelligence — also known as AI — is, or not?

Yes 67%
No 33%

---

27. Is that a very good understanding or somewhat good understanding of AI?
Among those who say they understand AI

Very good 36%
Somewhat good 64%

---

28. These days, do you think it is necessary for people to use AI if they want to keep up with the times, or is it not necessary?

Necessary 37%
Not necessary 63%

---

29. Today, do you think AI can do these things better, worse, or about the same as humans?

	Better	Worse	Same
Make medical diagnoses	23%	48%	29%
Find things on the internet	63%	13%	24%
Correct writing and grammar	62%	15%	23%
Make financial and economic decisions	23%	42%	34%
Analyze data	62%	14%	24%
Drive a car	12%	65%	23%
Create art	25%	47%	28%
Provide customer service	19%	53%	28%
Produce accurate information	34%	31%	35%

---

30. Do you think that, in general, AI will create more problems than it solves, or do you think AI will solve more problems than it creates?

Will create more problems 44%
Will solve more problems 25%
Don't know 31%

---

31. Are you concerned or not about AI being used to create false or misleading information, pictures and videos?

Very concerned 50%
Somewhat concerned 38%
Not too concerned 9%
Not at all concerned 2%

32. In general, do you think you personally can tell the difference between things produced by AI and things produced by a human...?

Very well 10%
Somewhat well 44%
Not too well 35%
Not well at all 11%

33. Do you think AI is going to change society more, about the same, or less than the internet did after it was introduced in society?

More 61%
Same 30%
Less 9%

34. Do you think the development of AI and AI companies will be...?

Good for the economy 37%
Bad for the economy 45%
Not impact the economy 18%

35. In the next ten years or so, what impact, if any, do you think AI will have on the way people in your field of work do their jobs? Do you think AI will...?
Among those who are working full or part time

Make jobs in your field harder to do 26%
Make jobs in your field easier to do 39%
Not impact that work either way 35%

36. In the next ten years or so, do you think that AI will increase, decrease, or not have any impact on the number of jobs available in your field of work?
Among those who are working full or part time

Increase 22%
Decrease 42%
Have no effect 36%

37. Do you use AI for anything?

Yes 41%
No 59%

38. When you use AI, do you use it...?
Among those who use AI

Mostly for work 15%
Mostly for personal use 57%
About equally work/personal 28%

26. Feel You Understand AI
Do you feel you have a good understanding of what artificial intelligence — also known as AI — is, or not?

	Total	Gender		Age				Ideology

HOW THE POLL WAS CONDUCTED AND THE MARGIN OF ERROR CALCULATED

The CBS News/YouGov survey of 2,351 adults in the U.S. was conducted between March 24-26, 2025.

This sample was weighted according to gender, age, race, and education based on the U.S. Census American Community Survey, and the U.S. Census Current Population Survey, and 2024 Presidential vote. Respondents were selected to be representative of adults nationwide. The weights range from 0.1 to 5.5, with a mean of 1 and a standard deviation of 0.8.

The *margin of error* (a 95% confidence interval) for a sample percentage p based upon the entire sample is approximately ±2.5 points. It is calculated using the formula

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + \text{CV}^2}{n}}$$

where CV is the coefficient of variation of the sample weights and n is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
