The Economist/YouGov Poll

October 10–12, 2026 - 1403 U.S. Registered Voters

Sponsorship	<i>The Economist</i>
Fieldwork	YouGov
Interviewing Dates	October 10–12, 2026
Target population	Registered voters for November 3, 2026, U.S. election
Sampling method	Respondents were selected from YouGov's opt-in panel to be representative of adult U.S. citizens, and screened for voter registration.
Sample composition	2,348 started the survey after screenouts. 462 were deleted due to breakoffs, 26 were removed for interview completion time under 5 minutes, 14 were removed for attention check failures, and 298 were removed for data quality control. 1,403 of the 1,548 respondents in the cleaned sample reported that they were currently registered to vote or planned to register before the election in November.
Weighting	The sample was weighted according to gender, age, race, education, U.S. region of residence, 2024 election turnout and presidential vote, 2020 election turnout and presidential vote, baseline party identification, and current voter registration status. 2024 presidential vote, at time of weighting was estimated to be 48% Harris and 50% Trump. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given around November 8, 2024, and is weighted to the estimated distribution at that time (31% Democratic, 33% Republican). The weights range from 0.051 to 6.554, with a mean of one and a standard deviation of 0.773.
Number of respondents	1403
Margin of error	± 3.5% (adjusted for weighting)
Likely Voter Screen	"Strict" indicates a respondent who is currently registered to vote and indicated that they "Definitely will vote" or "Already voted". "Loose" indicates a respondent who is either currently registered to vote or indicated that they plan to register before the election, and also indicates that they either "Definitely will vote", "Probably will vote", or "Already voted".
Survey mode	Web-based interviews
Questions not reported	0 questions not reported.
