70. Old to Young Ratio

Generally speaking older people are more expensive to insure than younger people, because older people tend to need more medical care than younger people. Under current law, health insurance companies are only permitted to charge older people three times as much as they charge younger people. Some people say the three to one limit causes higher insurance premiums for younger people, while other people say a higher limit would cause higher insurance premiums for older people. What do you think is the right policy?
