60. Old president

If elected president in 2020, several candidates would be 80 years old or older while president. Do you think being 80 years old or older might make it too difficult to do the work the presidency requires, or do you think age helps candidates to have the experience and wisdom to do a good job as president?

61. Young president

If elected president in 2020, several candidates would begin his or her term before reaching 40 years old. Do you think a candidate being under 40 years old might make the candidate too inexperienced to do the work the presidency requires, or do you think the candidate's age helps him or her to have the fresh new ideas to do a good job as president?
