Asked of registered voters voting for Harris or Trump

The country will never recover	46%
The country will suffer for four years and then have a chance to change direction	35%
More of the same - it doesn't really matter who is president	5%
Not sure	13%

31. Which of these arguments do you find most convincing?

The illegal immigrant invasion has turned the U.S. into an occupied country and must be stopped. All illegal immigrants — an estimated 12 million people — should be identified and deported by the national guard and local police, even if getting them out would end up being violent.	34%
Forced deportations would require massive raids and giant detention camps, and they would likely sweep up people who have lived in the U.S. for decades. Instead, the government should strengthen border security and create an earned pathway to citizenship for immigrants who have obeyed the law since arriving here.	51%
Not sure	15%

32. Which of these arguments do you find most convincing?

To protect our workers, we should force companies who don't make their products in America to pay an across-the-board 10% tariff on all foreign imports and a 60% tariff for products from China. Hundreds of billions of dollars will come in through tariffs to benefit Americans. ...	44%
An across-the-board tariff is effectively a big new sales tax on Americans that will greatly increase inflation because companies will pass the costs for many everyday goods and services directly to American consumers. These tariffs will raise prices for middle-class families by almost \$4,000 a year.	34%
Not sure	22%

33. Which of these arguments do you find most convincing?

- Protecting transgender rights is essential to ensuring equality for all Americans, including access to healthcare and protection from discrimination. 32%
- Transgender rights have gone too far, infringing on the rights of women and children, especially in sports and schools. 56%
- Not sure 12%

34. Which of these arguments do you find most convincing?

- Roe v. Wade tore the country apart for 52 years. Everyone wanted it gone. Now things will be better because each state can decide whether or not to allow abortions. 35%
- Roe v. Wade protected the rights of women for 52 years. Now women are dying in states where they can't get the care they need — and things will get even worse if Trump wins and tries to ban abortion nationwide. 44%
- Not sure 22%

35. Which of these arguments do you find most convincing?

- In Donald Trump's first term, there were experienced advisors who protected Trump from carrying out his most extreme ideas, like prosecuting political rivals and using the military to go after Americans. In a second term, he won't have the same kinds of White House staffers and structure to stop him from hurting the country. 42%
- Donald Trump likes to make provocative statements, but that's just the way he is, saying what's on his mind and telling it like it is. After four years as president, we know that the media twists Trump's words and that Trump won't actually go through with anything that would hurt the country. 43%
- Not sure 15%

36. Which of these arguments do you find most convincing?

- Nearly half of Trump's cabinet has refused to endorse him. Many people who worked closely with Trump during his first term now warn that he is dangerous and unfit for the presidency. We should believe them. 46%
- The Trump officials now speaking out against him are ex-employees, so they are probably bitter and may not be telling the truth about his character. We should not believe them. 37%
- Not sure 16%

37. Which of these arguments do you find most convincing?

- When asked what she would have done differently than President Biden, Harris said that "not a thing" comes to mind. Nothing will change with Harris. 44%
- As vice president, Harris' job was to support President Biden. If she wins in November, her own presidency will be about finding new ways to move America forward and solve big problems. 46%
- Not sure 10%

38. Do you think this year's presidential election will be free and fair?

Which of these arguments do you find most convincing?

	Total	Gender		Age				Race		
		Male	Female	18-29	30-44	45-64	65+	White	Black	Hispanic
The illegal immigrant invasion has turned the U.S. into an occupied country and must be stopped. All illegal immigrants — an estimated 12 million people — should be identified and deported by the national guard and local police, even if getting them out would end up being violent.	34%	37%	31%	22%	32%	38%	43%	40%	14%	23%
Forced deportations would require massive raids and giant detention camps, and they would likely sweep up people who have lived in the U.S. for decades. Instead, the government should strengthen border security and create an earned pathway to citizenship for immigrants who have obeyed the law since arriving here.	51%	48%	53%	60%	50%	47%	48%	48%	71%	52%

Which of these arguments do you find most convincing?

	Total	Gender		Age				Race		
		Male	Female	18-29	30-44	45-64	65+	White	Black	Hispanic
To protect our workers, we should force companies who don't make their products in America to pay an across-the-board 10% tariff on all foreign imports and a 60% tariff for products from China. Hundreds of billions of dollars will come in through tariffs to benefit Americans.	44%	49%	39%	37%	45%	45%	47%	46%	34%	43%
An across-the-board tariff is effectively a big new sales tax on Americans that will greatly increase inflation because companies will pass the costs for many everyday goods and services directly to American consumers. These tariffs will raise prices for middle-class families by almost \$4,000 a year.	34%	33%	36%	36%	31%	37%	34%	35%	40%	30%

In Donald Trump's first term, there were experienced advisors who protected Trump from carrying out his most extreme ideas, like prosecuting political rivals and using the military to go after Americans. In a second term, he won't have the same kinds of White House staffers and structure to stop him from hurting the country.	42%	42%	43%	45%	42%	41%	41%	40%	60%	34%
Donald Trump likes to make provocative statements, but that's just the way he is, saying what's on his mind and telling it like it is. Polling Methodology and Margin of Error Calculation

The Yahoo! News survey was conducted by YouGov using a nationally representative sample of 1,710 U.S. adults interviewed online between October 29 – 31, 2024.

The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent’s most recent answer given prior to November 1, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 27% Republican). Respondents were selected from YouGov’s opt-in panel to be representative of all U.S. adults. The weights range from 0.1 to 6.5, with a mean of 1 and a standard deviation of 0.7.

The *margin of error* (a 95% confidence interval) for a sample percentage p based upon the entire sample is approximately 2.8%. It is calculated using the formula

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + CV^2}{n}}$$

where CV is the coefficient of variation of the sample weights and n is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
