

YouGov Survey: Organ Donation

Sample 1000 U.S. Adult Citizens
Conducted December 15 - 18, 2022
Margin of Error ±3.5%

1. Are you registered as an organ donor?

Yes	41%
No	46%
Prefer not to say	6%
Not sure	7%

2. Do you know someone who has donated an organ while alive?

Yes, me	6%
Yes, a family member	7%
Yes, a friend	12%
Yes, someone else	7%
No	69%
Prefer not to say	3%

3. Do you know someone who donated an organ after dying?

Yes, a family member	13%
Yes, a friend	10%
Yes, someone else	10%
No	67%
Prefer not to say	4%

4. Do you know someone who has received an organ donation?

Yes, me	4%
Yes, a family member	10%
Yes, a friend	13%
Yes, someone else	12%
No	63%
Prefer not to say	3%

5. Would you prefer that the United States have an opt-in system for organ donation upon death (where it's assumed people are not organ donors unless they had explicitly decided to be) or an opt-out system for organ donation (where it's assumed people are organ donors upon death unless they had explicitly decided not to be)?

An opt-out system, where participation is automatic	26%
An opt-in system, where participation is not automatic	43%
Prefer not to say	3%
Not sure	28%

6. Do you think that minors should be allowed to consent to donate organs on their own, or should they be required to get a parent's permission?

They should be allowed to consent on their own	24%
They should be required to get a parent's permission	60%
Not sure	17%

7. Do you think people who are registered to be organ donors after their death are more or less likely than people who aren't organ donors to be given life-saving care by doctors?

More likely	12%
About as likely	44%
Less likely	11%
Not sure	33%

8. Do you think people who are registered to be organ donors after their death should be...?

More likely	12%
About as likely	53%
Less likely	6%
Not sure	28%

9. Do you think there is currently a maximum age requirement for donating organs in the U.S.?

Yes	14%
No, there is not	26%
Not sure	59%

10. Do you think there should be a maximum age requirement for donating organs?

Yes	19%
No, there should not be	41%
Not sure	40%

11. Do you think that to donate organs in the U.S., the donor is required to be in good health?

Yes	55%
No	17%
Not sure	28%

12. Do you think that to donate organs in the U.S., the donor should be required to be in good health?

Yes	57%
No	19%
Not sure	25%

13. Do you think that U.S organ donors can also donate their body to science for research?

Yes	67%
No	9%
Not sure	24%

14. Do you think that U.S organ donors also should be allowed to donate their body to science for research?

Yes 73%
 No 10%
 Not sure 18%

15. Do you think that Americans are allowed to donate a kidney to someone other than a family member?

Yes 78%
 No 6%
 Not sure 16%

16. Do you think that Americans should be allowed to donate a kidney to someone other than a family member?

Yes 81%
 No 6%
 Not sure 13%

Interviewing Dates	December 15 - 18, 2022
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to March 15, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 28% Republican). The weights range from 0.255 to 5.284, with a mean of 1 and a standard deviation of 0.487.
Number of respondents	1000
Margin of error	± 3.5% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	59 questions not reported.

YouGov Survey: Organ Donation

December 15 - 18, 2022 - 1000 U.S. adult citizens

Interviewing Dates	December 15 - 18, 2022
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to March 15, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 28% Republican). The weights range from 0.255 to 5.284, with a mean of 1 and a standard deviation of 0.487.
Number of respondents	1000
Margin of error	± 3.5% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	59 questions not reported.
