5. Support 15-Minute Neighborhood

For the question that follows, by a "15-minute neighborhood" we mean the idea that every person within an area should be within what is a typical person's 15-minute walk of basic amenities (such as a pharmacy, a school, and a grocery store). To what extent, if at all, would you support or oppose your local government setting a target to make your area a 15-minute neighborhood?

YouGov Survey: 15-Minute Neighborhoods
March 9 - 16, 2023 - 2000 U.S. adult citizens

Interviewing Dates	March 9 - 13, 2023 | March 13 - 16, 2023
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to March 15, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 28% Republican). The weights range from 0.178 to 4.186, with a mean of 1 and a standard deviation of 0.437.
