Interviewing Dates

August 4 - 7, 2022

Target population

U.S. Citizens, aged 18 and over.

Sampling method

Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2018 American Community Study. Voter registration was imputed from the November 2018 Current Population Survey Registration and Voting Supplement.

Weighting

The sample was weighted based on gender, age, race, education, news interest, and 2020 Presidential vote (or non-vote). The weights range from 0.279 to 3.114, with a mean of one and a standard deviation of 0.339.

Number of respondents

1000

Margin of error

± 3.3% (adjusted for weighting)

YouGov Survey: Bathroom Experiences

September 14 - 19, 2022 - 1000 U.S. adult citizens

Interviewing Dates	September 14 - 19, 2022
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
Weighting	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to March 15, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 28% Republican). The weights range from 0.233 to 4.939, with a mean of 1 and a standard deviation of 0.439.
Number of respondents	1000
Margin of error	± 3.4% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	65 questions not reported.
