

# YouGov Survey: Weight Loss Drugs and Obesity

Sample 1000 U.S. Adult Citizens  
Conducted March 22 - 27, 2023  
Margin of Error ±3.4%

## 1. How often do you feel pressure to conform to societal standards of body size or weight?

Always	8%
Often	14%
Sometimes	27%
Rarely	23%
Never	26%
Not sure	2%

## 2. How often do you compare your body size or weight to others?

Always	9%
Often	15%
Sometimes	30%
Rarely	22%
Never	21%
Not sure	2%

## 3. Have you personally ever faced prejudice in the following settings as a result of your weight? Select all that apply.

The job market	12%
Your family	19%
Dating	19%
The health care system	18%
The education system	9%
Public transportation	9%
Restaurants and stores	8%
None of the above	51%
Prefer not to say	3%

## 4. Has a health care provider ever advised you to lose weight in response to a health concern you've raised that you felt was unrelated to weight?

Yes	32%
No	62%
Not sure	6%

5. When health care providers measure a patient's weight during a routine appointment, how often do you think doing so is medically necessary?

Always	26%
Often	22%
Sometimes	28%
Rarely	12%
Never	6%
Not sure	6%

6. Which comes closer to your view about obesity?

It is a complex chronic disease	37%
It is the result of a lack of self-control	39%
Neither	24%

7. How much of a role do you think the following plays in causing obesity?

	Very important	Somewhat important	Not very important	No role	Not sure
Genetics	40%	42%	10%	4%	4%
Environmental factors	23%	37%	20%	12%	7%
Lifestyle choices	59%	29%	7%	3%	3%
The food industry	49%	32%	11%	4%	4%
Access to health care	28%	35%	21%	9%	7%
Mental health issues	41%	36%	10%	6%	6%

8. BMI, or Body Mass Index, is a measurement tool that calculates a person's body fat based on their weight and height. How good or bad of a predictor of health outcomes do you think BMI is?

Very good	17%
Somewhat good	44%
Somewhat bad	15%
Very bad	6%
Not sure	18%

9. How strongly linked do you think obesity is with health outcomes?

Very strongly linked	36%
Somewhat strongly linked	45%
Not very strongly linked	9%
Not at all linked	3%
Not sure	6%

10. In general, do you think it is possible for someone to be a lot overweight and still be healthy, or not?

Yes, it is possible for someone to be a lot overweight and healthy	55%
No, it is not possible for someone to be a lot overweight and healthy	45%

11. Do you personally know anyone who is considered clinically obese? Select all that apply.

Yes, me .....	19%
Yes, a family member .....	33%
Yes, a friend .....	35%
Yes, an acquaintance .....	29%
None of the above .....	24%
Prefer not to say .....	4%

12. Do you think there is an epidemic of obesity in the United States?

Yes .....	72%
No .....	13%
Not sure .....	15%

13. How often do you think that people who are obese face prejudice in the following setting?

	Very often	Somewhat often	Not very often	Never	Not sure
The job market	30%	42%	15%	5%	8%
Their families	21%	39%	24%	6%	9%
Dating	51%	30%	9%	4%	7%
The health care system	29%	36%	19%	6%	10%
The education system	22%	38%	23%	5%	12%
Public transportation	26%	38%	19%	6%	12%
Restaurants and stores	23%	38%	25%	5%	10%

14. Who do you think is more likely to experience prejudice as a result of being obese?

Men .....	8%
Women .....	50%
Both equally likely .....	36%
Not sure .....	6%

15. In your opinion, has our society...

Gone too far in accepting people who are obese .....	20%
Been about right when it comes to accepting people who are obese .....	22%
Not gone far enough in accepting people who are obese .....	34%
Not sure .....	24%

16. Which, if any, of the following terms do you consider to be appropriate to refer to people who are considered clinically obese? Select all that apply.

Fat .....	23%
Overweight .....	50%
Heavy .....	34%
Large .....	30%
Plus-sized .....	40%
Obese .....	36%
None of the above .....	5%
Not sure .....	9%

17. When it comes to talking to someone you know, would you consider it to be appropriate or inappropriate to do the following?

	Appropriate	Inappropri- ate	Not sure
Comment on their weight gain	23%	64%	14%
Compliment their weight loss	68%	19%	14%
Offer unprompted advice on how to lose weight	24%	63%	13%
Say they would be more attractive if they lost weight	22%	67%	11%
Tell them you are concerned about their health because they are overweight	46%	34%	20%

18. How supportive do you think society is of people who are obese attempting to lose weight?

Very supportive .....	16%
Somewhat supportive .....	43%
Somewhat unsupportive .....	20%
Very unsupportive .....	12%
Not sure .....	9%

19. Thinking generally of people who go on weight-reduction diets, do you think those diets are... ?

Usually successful .....	14%
Result in only temporary weight loss .....	50%
Usually not successful .....	24%
Not sure .....	12%

20. In your opinion, what role should the following play for a person who is obese and wants to lose weight?

	Primary method	Supplementary method	Used only as a last resort	Should not be used	Not sure
Increased physical activity	57%	28%	6%	3%	7%
Dietary changes	65%	20%	5%	2%	7%
Weight loss surgery	7%	16%	56%	13%	9%
Prescription weight loss drugs	8%	32%	32%	17%	11%
Behavioral therapy	23%	44%	12%	5%	16%
Commercial weight loss programs	10%	39%	21%	16%	15%

21. Have you ever done any of the following in an attempt to lose weight?

Increased physical activity	50%
Dietary changes	52%
Weight loss surgery	7%
Prescription weight loss drugs	12%
Behavioral therapy	9%
Commercial weight loss programs	15%
None of the above	11%
I've never tried to lose weight	17%

22. How much have you heard about or read in the news recently about an antidiabetic and weight loss drug called semaglutide (sold under the brand names Ozempic, Wegovy, and Rybelsus)?

A lot	23%
A little	37%
Nothing at all	40%

23. Do you personally know anyone who has taken semaglutide (sold under the brand names Ozempic, Wegovy, and Rybelsus) for weight loss purposes? Select all that apply.

Yes, me	5%
Yes, a family member	8%
Yes, a friend	9%
Yes, an acquaintance	6%
None of the above	73%
Prefer not to say	4%

24. Semaglutide causes people to lose weight by suppressing their appetite and by slowing the rate at which food empties out of the stomach. Possible side effects include nausea, diarrhea, vomiting, and constipation. If semaglutide were available to you, how interested would you be in taking it to lose weight?

*Among people who haven't taken it before*

Very interested	7%
Somewhat interested	21%
Not very interested	16%
Not at all interested	46%
Not sure	10%

25. How safe or unsafe do you think the weight loss drug semaglutide is?

*Asked of people who have heard at least something about semaglutide*

Very safe	8%
Somewhat safe	28%
Somewhat unsafe	26%
Very unsafe	13%
Not sure	26%

26. How effective at helping people lose weight do you think the weight loss drug semaglutide is?

*Asked of people who have heard at least something about semaglutide*

Very effective	13%
Somewhat effective	40%
Not very effective	13%
Not at all effective	4%
Not sure	30%

27. Do you think that the development of weight loss drugs such as semaglutide is overall a good or bad thing for society?

Good thing	21%
Neither good nor bad	34%
Bad thing	23%
Not sure	22%

28. Thinking about people who are obese using drugs such as semaglutide to lose weight, would you say that...?

The benefits significantly outweigh the risks	7%
The benefits somewhat outweigh the risks	16%
The benefits and risks are balanced	18%
The risks somewhat outweigh the benefits	17%
The risks significantly outweigh the benefits	16%
Not sure	26%

29. Do you think that access to weight loss drugs such as semaglutide should... ?

Be much more regulated	26%
Be somewhat more regulated	24%
Have no change in regulation	18%
Be somewhat less regulated	7%
Be much less regulated	4%
Not sure	21%

30. Do you think that prescriptions for weight loss drugs such as semaglutide should be available via telehealth, or only after seeing a health care provider in person?

Should be available via telehealth	24%
Should only be available in person	54%
Not sure	22%

31. Should prescription weight loss drugs be covered by private insurance?

Yes	57%
No	18%
Not sure	25%

32. Should prescription weight loss drugs be covered by Medicaid?

Yes	57%
No	19%
Not sure	24%

33. The American Pediatric Association recently included weight loss drugs and weight loss surgery as part of a set of treatments that physicians should consider for children with obesity. Do you agree or disagree that the following should be part of a set of treatments that physicians should consider for children with obesity?

	Strongly agree	Somewhat agree	Somewhat disagree	Strongly disagree	Not sure
Weight loss drugs	9%	27%	22%	28%	14%
Weight loss surgery	6%	17%	21%	41%	14%

34. How would you describe your current overall health?

Excellent	10%
Very good	23%
Good	37%
Fair	23%
Poor	6%
Prefer not to say	2%

## 35. How would you describe your current body weight?

Obese .....	11%
Overweight .....	35%
Healthy weight .....	42%
Underweight .....	6%
Not sure .....	3%
Prefer not to say .....	2%

## 36. Currently, would you prefer to...

Gain a lot of weight .....	2%
Gain a little weight .....	8%
Maintain your weight .....	29%
Lose a little weight .....	40%
Lose a lot of weight .....	18%
None of the above .....	3%

<b>Interviewing Dates</b>	March 22 - 27, 2023
<b>Target population</b>	U.S. citizens, aged 18 and over.
<b>Sampling method</b>	Respondents were selected from YouGov’s opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
<b>Weighting</b>	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent’s most recent answer given prior to March 15, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 28% Republican). The weights range from 0.24 to 4.558, with a mean of 1 and a standard deviation of 0.432.
<b>Number of respondents</b>	1000
<b>Margin of error</b>	± 3.4% (adjusted for weighting)
<b>Survey mode</b>	Web-based interviews
<b>Questions not reported</b>	52 questions not reported.

## 24. Interest in New Weight Loss Drug Semaglutide

Semaglutide causes people to lose weight by suppressing their appetite and by slowing the rate at which food empties out of the stomach. Possible side effects include nausea, diarrhea, vomiting, and constipation. If semaglutide were available to you, how interested would you be in taking it to lose weight?

*Among people who haven't taken it before*

	Gender			Age (4 category)				Race (4 category)			
	Total	Male	Female	18-29	30-44	45-64	65+	White	Black	Hispanic	Other
Very interested	7%	5%	9%	7%	9%	9%	3%	8%	6%	*	*

March 22 - 27, 2023 - 1000 U.S. adult citizens

<b>Interviewing Dates</b>	March 22 - 27, 2023
<b>Target population</b>	U.S. citizens, aged 18 and over.
<b>Sampling method</b>	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2019 American Community Survey.
<b>Weighting</b>	The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to March 15, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 28% Republican). The weights range from 0.24 to 4.558, with a mean of 1 and a standard deviation of 0.432.
<b>Number of respondents</b>	1000
<b>Margin of error</b>	± 3.4% (adjusted for weighting)
<b>Survey mode</b>	Web-based interviews
<b>Questions not reported</b>	53 questions not reported.
