December 10-12, 2016
U.S. citizens, aged 18 and over.

Respondents were selected from YouGov's opt-in Internet panel using sam ple matching. A random sample (stratified by gender, age, race, education geographic region, and voter registration) was selected from the 2014 American Community Study. Voter registration was imputed from the November 2014 Current Population Survey Registration and Voting Supplement.

The sample was weighted based on gender, age, race, education, and 2016 Presidential vote. The weights range from 0.14 to 3.687 , with a mean of one and a standard deviation of 0.742 .
