Interviewing Dates	November 29 - 30, 2016
Target population	U.S. citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2014 American Community Study. Voter registration was imputed from the November 2014 Current Population Survey Registration and Voting Supplement.
Weighting	The sample was weighted based on gender, age, race, education, and 2016 Presidential vote. The weights range from 0.16 to 3.858, with a mean of one and a standard deviation of 0.775.
Number of respondents	1000
Margin of error	$\pm$ 3.9% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	19 questions not reported.
