Interviewing Dates April 12 - 18, 2022

Target population U.S. Citizens, aged 18 and over.

Sampling method Respondents were selected from YouGov's opt-in Internet panel using

sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2018 American Community Study. Voter registration was imputed from the November 2018 Current Population Survey Regis-

tration and Voting Supplement.

Weighting The sample was weighted based on gender, age, race, education,

news interest, and 2020 Presidential vote (or non-vote). The weights range from 0.414 to 2.965, with a mean of one and a standard devia-

tion of 0.331.
