5-9	16%
10-14	11%
15-18	4%
Older than 18	2%
I still think so	9%
I don't know what that is	6%
Not sure	16%

Interviewing Dates	March 18 - 20, 2022
Target population	U.S. Citizens, aged 18 and over.
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2018 American Community Study. Voter registration was imputed from the November 2018 Current Population Survey Registration and Voting Supplement.
Weighting	The sample was weighted based on gender, age, race, education, news interest, and 2020 Presidential vote (or non-vote). The weights range from 0.236 to 5.301, with a mean of one and a standard deviation of 0.53.
Number of respondents	1000
Margin of error	± 3.5% (adjusted for weighting)
Survey mode	Web-based interviews
Questions not reported	67 questions not reported.
